## PREFACE.

---

HAVING been engaged for some years in preparing and publishing works of a statistical nature, relating to Canada, the idea had frequently occurred to the Editor of the Canada Directory, that a volume which would give the amount and nature of information relative to the Province which is contained in the present one, could not fail to be of much practical utility and value to the public.

The difficulty, however, of finding a publisher who was willing to risk the heavy outlay incidental to bringing out such a work (as, added to the ordinary expenses, nearly all the information had to be collected by travelling agents, employed expressly for that purpose,) was the cause of its being delayed from time to time.

This difficulty having at length been obviated by the arrangements made with Mr. John Lovell, of Montreal, the publisher of the present volume, active operations in collecting the requisite material, (in which the Editor and eight intelligent assistants were employed,) were commenced in September, 1850, and the result of their labours is now submitted to the public in the contents of the following pages.

How far the Editor has succeeded in the design of producing *a useful book*, it will be for the public to decide, but this much he can confidently say, that the labour bestowed upon it has been great, and the task an arduous one, and that no exertion nor expense have been spared in procuring the necessary data.

Should, however, any errors or omissions be discovered, and in the first edition of a work such as the present, it is almost impossible but that to some extent such should be the case, it is hoped that a reasonable degree of allowance will be made for them, when the difficulties of collecting and arranging such a mass of information as is here given are duly considered.

His thanks are due to many gentlemen residing in remote localities, for furnishing him with the necessary information regarding them, and his acknowledgments are particularly due to the Hon. James Morris, and the Hon. Joseph Bourret, for the promptitude and courtesy with which the information relative their several departments was supplied.

Indeed, with few exceptions, all who were applied to for information, kindly and cordially responded to the call, and to the gentlemen of the Canadian press, generally, his obligations have been numerous, and his thanks are sincere.

It was stated in the Prospectus of the Directory, that the names of the subscribers would appear in SMALL CAPITALS, heading the list of names in their respective Towns or Villages, and that plan has been strictly adhered to throughout, no disparagement of those who are not subscribers was originally meant, nor is now intended by this arrange-

ment, which was designed simply as a fitting acknowledgment for the encouragement and support received from those who subscribed, and as such, will, he hopes, be accepted by them.

When the Directory was projected, it was intended that Villages having a population of less than from four to five hundred, should not be included in its pages, and it was supposed that returns from two hundred and fifty to three hundred places, at most, would be given. It will be observed that this resolution has not been adhered to, as it was found that many places having a less population than that designated, were growing so rapidly, that previous to another edition of the work being issued, they would probably exceed the intended limits, and the consequence of this extension of the original plan is, that returns from over FIVE HUNDRED AND FIFTY different localities are embodied in the present volume.

Some of the agents employed in receiving orders, inadvertently received advertisements for insertion, which, from their nature, were deemed inadmissible, and consequently do not appear. Other advertisements received, were ordered to appear on certain designated pages, and these also are declined, as the plan of the Directory is an ALPHABETICAL ARRANGEMENT, either by names or businesses, which is the only fair and equal one for all concerned.

A few also sent advertisements, the extent of which so *greatly exceeded* the limited space which was ordered, that no alternative but rejecting them altogether seemed possible.

In the course of his tour through the Province, while collecting the materials for the present work, the Editor found, that a very strong desire existed for "A GENERAL GAZETTEER OF THE BRITISH NORTH AMERICAN PROVINCES," and many of the most influential gentlemen in every section of the Country that he visited, pledged him their co-operation and support in such an undertaking.

He has, consequently, much satisfaction in being able to announce that a large portion of the data necessary for the work is already in hand, and that arrangements have been perfected, which will enable him within a very brief period to place a comprehensive Prospectus of "THE GAZETTEER OF BRITISH NORTH AMERICA," in the hands of the public.

It is intended to issue a new and corrected edition of "THE CANADA DIRECTORY," early in 1854, and trusting that in the mean time the present one will be found to answer all the requirements of the Professional and Business Community,

He has the honor to be,

Very respectfully,

Their obedient servant,

ROBERT W. S. MACKAY.

MONTREAL, November, 1851.

**BYTOWN,**

THE COUNTY TOWN of the County of Carleton, is situated on the River Ottawa, in the Township of Nepean, C. W. The Town is divided into two parts, known as the Upper and Lower Town. It is connected with the village of Hull, C. E., by a handsome Suspension Bridge, and both that village and New Edinburgh, which is about a mile south-east of Bytown, may be considered, in a commercial point of view, as identical with the town. A railway to connect Bytown with Prescott is now in progress, and when completed (which will doubtless be at an early day) it cannot fail to be of immense advantage to the fine country which it will intersect, as well as to Bytown and the extensive and fertile country drained by the Ottawa and its tributaries. Bytown is distant from Montreal, 120 miles—usual steamboat and stage fare in summer, 20s.—usual stage fare in winter, 25s.—distant from Kingston, *via* Rideau Canal, 142 miles—usual steamboat fare, 25s. # CALEDONIA SPRINGS DEPOT,

No. 9, Corner of Place d'Armes, and Great St. James Street,

## MONTREAL.

THE Proprietor of these justly celebrated MINERAL WATERS, now so long and favorably known to the public of Canada and the United States, has established a Depot for their sale as above, where the waters of the Intermittent, Saline, Sulphur and Gas Springs will constantly be received fresh from the Springs.

The following certificates of the efficacy of these Waters are respectfully submitted to the public.

*Extract of a letter from the late eminent physician, Dr. Robertson of Montreal.*

"The complaints, as far as my experience extends, in which they prove most beneficial, are Dyspepsia, affections of the Urinary Organs and some diseases of the Skin.

But the disease, above all others, in which their good effects are most decided, is *Rheumatism*. Some cases of this complaint came under my observation within the last few years, in which the benefit derived from the use of the Caledonia Water, was extraordinary. I have also known individuals who suffered from the improper use of Mercury and the effects of disease, for the cure of which this medicine is generally administered, who were restored to health, by the use of these waters. Several cases of the disease designated *Chlorosis*, (a disease of young females,) have been perfectly cured."

Dr. Douglas of Grosse Isle says:—

"I use a bottle every morning, and so does Dr. Jacques, my assistant. Whether the Water may be a preservative against Typhus, by keeping the general health in good order, or whether it possesses specific powers of its own, I do not pretend to say; but this I can say, that Dr. Jacques and myself are the only two, out of fourteen medical men who were in June, on duty, that have escaped the pestilence. All took fever, and two have died, and the others remain very ill.

Dr. Mount of Montreal, referring to Rheumatism, says:—

"I have often seen persons martyrs to this disease, (myself for one during ten years,) which baffled all medical skill, both in England and on this Continent, resort to the Caledonia Springs walking on crutches, and others that could not walk at all, worn out by protracted sufferings, and their general health disordered and broken down by confinement and want of exercise, return to their homes free from pain, leaving behind (with unspeakable joy) their crutches, and with health, strength, appetite, and activity, perfectly restored.

Dr. Campbell of Montreal says:—

"Of all diseases that have come under my notice, in which a persevering use of the Baths and Waters promises the most beneficial results, Chronic Rheumatism ranks the first. I have also found the Water useful in Dyspeptic and Urinary Complaints, in Chlorosis, Secondary Syphilis, and some of the forms of Cutaneous Disease."

Dr. Crawford of Montreal says:—

"I beg to state that I consider the Caledonia Waters efficacious in cases of Dyspepsia, Chronic Rheumatism, or where the constitution has been impaired by the injudicious use of Mercury, and ill-treated Syphilis; I would also add, in certain Cutaneous Diseases. I have frequently recommended their use in the above complaints, and witnessed their good effects."

James R. Chilton, M. D., of New York, writes thus, with regard to those Waters:—

"The Waters of the Caledonia Springs will prove highly serviceable in the treatment of various Chronic diseases.

They possess those happy natural combinations of Medicinal ingredients which are almost universally acknowledged by Medical men, to be more beneficial as remedial agents than any imitation of them which we are capable of forming.

# THE Canada Life Assurance Company.

Incorporated by Act of Parliament.

HUGH C. BAKER, Esq, *President*; JOHN YOUNG, Esq, *Vice-President*.

*Bankers*—THE BANK OF MONTREAL.

THE CANADA LIFE ASSURANCE COMPANY offers peculiar advantages to parties who intend to assure their lives, among which the following are a few of the most prominent.

*First*.—Lower rates of premium than have ever been offered by any other respectable company transacting business in the Province.

It is conceived that it cannot be too often explained, that this advantage is altogether consequent upon the higher rate of interest which is obtained in Canada, where the funds of the Company are altogether invested, than in Great Britain, and not upon any supposition that life here is on the average of longer duration than it is there, on the contrary, to provide for the possibility that the value of life is less in Canada, the rates of this office have not been reduced in anything like the proportion which the higher interest of money would warrant, the Directors preferring to leave no room for hesitation, remembering that no great injustice can result, in consequence of the assured having the option of sharing in the profits realized.

*Second*.—The quickness with which claims are settled in the CANADA, no longer time being necessary than is sufficient to prove the death, and the validity of the claim made on the sum assured.

This, it must be admitted, is a decided improvement; for it is a well known fact that promptitude in the settlement of claims by death was very rarely the case among those life offices which had merely agencies in the Province, and where, of course, every claim had to be referred to head quarters in Great Britain before it could be adjusted.

*Third*.—After payment of one premium, if the party assured wishes to discontinue his policy, another policy payable at death will be granted, in lieu thereof, for a sum which shall equitably represent the value of the payment, or payments, made.

*Fourth*.—The promptitude with which calculations can be made for any transaction contingent on the duration of life, which is not to be met with in the published tables.

*Fifth*.—The very moderate expenditure of the Company, as compared with the expenditure of most British companies, it being the aim of the Board to curtail expenses, that as much as possible may accrue to the profits of the assured.

*Sixth*.—That it is the only Canadian Life Assurance Company, and therefore justly entitled to the support of those interested in the welfare of Canada; that in the face of a strong prejudice against Canadian institutions; notwithstanding the all prevailing ignorance respecting the nature and advantages of Life Assurance, which, in a great measure, it has done away with; and although opposed by long established, (but to a certain extent foreign,) companies, it promises, at no very distant period, to rank in point of wealth and importance, as it now does in actual utility, with the wealthiest and most important of the monied institutions in British North America.

## THE FOLLOWING ARE SPECIMENS OF THE RATES TO ASSURE £100 AT DEATH:

FOR LIFE WITH PROFITS—(New Rates.)						FOR LIFE WITHOUT PROFITS.									
Age.	£	s.	d.	Age.	£	s.	d.	Age.	£	s.	d.	Age.	£	s.	d.
15 . . . . .	1	8	6	40 . . . . .	3	1	0	15 . . . . .	1	6	5	40 . . . . .	2	14	8
20 . . . . .	1	12	8	45 . . . . .	3	11	8	20 . . . . .	1	9	11	45 . . . . .	3	4	0

Particular attention is requested to the

### ENDOWMENT ASSURANCE TABLES,

which have been framed with a view to enable parties to provide for themselves when overtaken by old age; and a policy in this scale is made payable to the party assured on his attaining a given age, while, if death occurs before he attains that age, the sum assured is paid to his representatives.

And to the

### TABLES OF LIMITED PAYMENTS, WITH AND WITHOUT PROFITS,

which have been constructed for the use of individuals who desire that a time should be specified when no further payments shall be required of them. The sums assured on these Tables are payable at death, whether that should take place before, or after, the number of years, over which the payments extend, has expired; and, although the payments are limited by the published tables to 15, 20, 25, 30 and 35 years, calculations can be made to extend over any number of years to suit the wishes of intending assurers.

Premiums payable either in one sum, or annually, semi-annually, or quarterly, or for a limited number of years.

The lives of Females assured, according to age last birth day.

All policies payable within three months after proof of death is lodged to the satisfaction of the Board.

Travelling and residence limits very liberal.

Medical Fee for examination paid by the Company.

No extra charge made for sea risk to or from Europe in first class sailing or steam vessels.

Prospectuses, Forms of Proposal, and all particulars relating to Assurance, may be obtained at the Head Office, or any of the Company's Agencies.

### MONTREAL.

The CITY of Montreal is situated on the River St. Lawrence, in the Island and County of the same name, and is the largest and most populous City in British America. It is an electoral district, returning two members to the Provincial Parliament, and the Courts of Law for the district are held here. Montreal is distant from Quebec, 180 miles—usual steamboat fare, 10s. to 12s. 6d.—usual stage fare, 40s. to 50s.—distant from Kingston, 200 miles, usual steamboat fare, 20s.—usual stage fare, 35s.—distant from Toronto, 390 miles—usual steamboat fare, 40s. to 45s.—and to Hamilton the same—distant from Bytown, 120 miles—usual steamboat and stage fare, 20s.—distant from New York, 420 miles—usual steamboat and railroad fare, 30s. to 40s. Those are the rates usually charged by the mail lines of steamers, stages, &c., for first class passengers, but during the period of navigation, there are almost daily opportunities of proceeding to Canada West, by comfortable and commodious steamers, at about one third less than the above tariff of charges. The population of the City, including the troops usually in garrison, is something over 50,000.

THE FOURTH ANNUAL MEETING of the COMPANY, was held on the 5th AUGUST, 1851, when a lengthened Report was read, which gave great satisfaction to all present. The following extracts will be read with interest:

The number of Policies issued in the year ending the 30th April, 1851, was 278, assuring £113,722 3s. 5d., and creating an additional income from premiums of £3,174 19s. 9d.: the excess upon the business of the preceding year being 45 policies, £9,980 8s. 10d. assurances, and £136 11s. 9d. income.

The business actually in force (all policies upon which renewal payments were due and unpaid having been cancelled) was comprised in 665 Policies, assuring £274,867 2s. 2d. upon 582 separate lives, two Annuity bonds, securing £160, and one Endowment bond for £100, the whole yielding an income, exclusive of the interest upon the invested means of the Company of £7,930 11s. 10d.

The Receipts of the Company during the period embraced by this report, have been, £14328 16 6  
Balance on hand, 30th April, 1850, . . . . . 10468 5 1

Total, . . . . . £24797 1 7

And the Expenditure for the same period, . . . . . £ 6664 11 9  
Leaving a balance of . . . . . 18132 9 10

£24797 1 7

Which was thus distributed:—

Cash, . . . . .	£ 482 10 9
Cash at Agencies, . . . . .	464 3 3
Investments, . . . . .	12610 19 11
Investments on Policies, . . . . .	3624 2 1

Office Furniture, . . . . .	132 1 3
Interest accrued on investments to April 30, 1851, . . . . .	177 1 9

£18132 9 1

The Company had been considerably over two years in existence before it sustained what is popularly but erroneously termed a "loss," and for the period embraced by the last Annual Report, but one "claim" by death matured, and that only for a trifling amount. During the past year three policies have become claims on the Company, covering the sum of £1650, all of which were paid upon the receipt of the required proofs of death and ownership, and without the delay provided for in the conditions of assurance.

In the preliminary valuation of the resources and liabilities of the Company, to ascertain the amount of profit available for distribution, the Board has continued the cautious system explained last year: that portion only of the income which arises from premiums having been included, and which represents the actual value of the risk undertaken by the Company.

In preparing the new tables, care has been taken to regulate them so as to secure to the assured in equitable proportions, the important advantage of the higher rate of interest at which this Company can make its investments. Thus the young assurer, who may reasonably look for long life, will find the new tables of this Company comparatively more advantageous to him than the assurer of increased age; for while the rates of the generality of British and American offices will be found on an average to exceed them from 6 to 10 per cent., at some of the earlier ages the excess is as great as 18 per cent.; so that a policy for £1180 could be secured in this Company at the same yearly cost as one for £1000 in another Company, without depriving the party assured of his right to share in the profits which even an average success must render equal to those of other Companies.

THE BOARD IN MONTREAL is invested with full powers to accept proposals, putting the Company on the risk, *at once*, without communicating with the parent Board.

This arrangement gives to the Colonial all the facilities of a company *essentially local*, and combines the additional advantage of a large guaranteed Capital.

## HALF CREDIT SYSTEM.

The Company grants assurances on the following plan:—*Half* of the Annual Premium will be received for the first *five* or *seven* years, the remaining half, with interest, being chargeable as a debt on the policy, to be paid off when convenient, or, at the option of the assured, to be deducted at settlement of claim.

Assured are at liberty to pass from any part of North America to any part of Europe, *without extra charge*.

## PROTECTIVE ASSURANCES.

### WHOLE-WORLD LICENSE.

Persons accepting Life Assurance Policies as a security for Money advanced, generally run the risk of the party going beyond the limits of his Policy, and incurring a forfeiture. The COLONIAL COMPANY are ready to grant Policies, at a slightly increased rate of Premium, (varying from 5s. to 10s. per cent.), *covering the risk of a party proceeding to any part of the world at an after period*, provided always the Company are satisfied that the party has no *intention* of going to an unhealthy climate.

## FREE AND UNCONDITIONAL ASSURANCES.

### TABLE OF SINGLE & ANNUAL PREMIUMS FOR ASSURANCE OF £100.

The risk to commence on a child attaining Eighteen or Twenty-one years of age, with liberty to live in any part of the world. As all Premiums are compensated before the risk commences, the Assurance becomes a simple promise to pay, on the death of party, *unconditionally*.

The assured may participate in profits on payment of a very slightly increased Premium.

## TO PARENTS AND GUARDIANS.

The Endowment System of Life Assurance now adopted by the COLONIAL LIFE ASSURANCE COMPANY, cannot fail to be appreciated by those who wish to make provision for their children in after life. A young man, on attaining Eighteen or Twenty-one Years of Age, can have no more valuable gift or endowment than a Policy untrammelled by conditions and unburdened by payments of any kind.

Policies opened under the above scheme will be purchased by the Company at an equitable rate at any time after the Assurance comes into effect, namely, at 18 or 21 respectively, so that, if the Assurance is not required, the Policy has the effect of securing an endowment.

THIS INSTITUTION embraces important and substantial advantages with respect to Life Assurance and deferred Annuities. The assured has on all occasions the power to borrow, without expense or forfeiture of Policy, one half of the Premiums paid, also the option of selecting benefits, and the conversion of his interests to meet other convenience or necessity.

Assurances for terms of years at the lowest possible rates.

*Persons insured for Life can at once borrow half the amount of Annual Premium without any security, beyond endorsement on policy which remains with the assured.*

All claims arising in the Province settled without reference to the Court of Directors in England, on satisfactory proof of death being furnished to the Local Board at Montreal.

The following extracts from the Actuary's Report, submitted at the 12th Annual General Meeting in London on the 8th May, 1851, exhibit the present position of the Society:

"The affairs of the Society, calculated up to December 1st, 1850, may be stated thus:—

Amount of investments, together with present value of income from annual premiums, £1,030,882 14 0  
Present value of liabilities on all assurances, annuities, &c., including paid-up capital, 926,821 17 2

Balance. . . . . £104,060 16 10

"Up to the end of the year 1850 the total number of policies in force amounts to 4,314, and the annual income arising therefrom to £63,590, covering assurances, including whole life, term, and miscellaneous policies, to the extent of no less than £2,072,688.

"The successful progress of the Society is plainly indicated in the following statement of the amounts of annual income on existing policies at the end of the respective years, viz:—

1846,	. . . . .	£39,747 15 1
1847,	. . . . .	42,749 3 3
1848,	. . . . .	45,103 2 4
1849,	. . . . .	54,496 15 2
1850,	. . . . .	63,590 8 4

The new business, from the end of the year up to the present time, amounts to 312 policies, assuring £177,209, and producing an additional income of £6,090 13s. 2d.

BY a constant analysis of its own experience from time to time, this Institution will adopt such rates of Premium as the nature of the risk may justify.

An annual investigation will be made into each class of risk, and a return of one-half the nett excess will be made to all classes of Insurers whose policies have been in force for three years.

The insured are free from the liabilities of a Mutual Insurance Society, and entitled, according to the plan of the Company, to a return of half the profits.

No charge made for policies, nor for removals or alterations by endorsements.

Losses paid, without reference to the London Court of Directors, on satisfactory proof being afforded the Local Board in this City.

# MONTREAL GRAMMAR SCHOOL,

46 St. Louis Street,

UNDER THE CARE OF

THE REV. J. A. DEVINE, A.M.,

*Alum. and Grad., King's Coll. University, Aberdeen.*

THE course of study pursued in this School, embraces the ordinary branches required for Mercantile Pursuits, as well as the higher departments of Classical and Mathematical Learning.

The immediate province of Education being the formation of suitable Moral and Intellectual Habits, rather than the mere memorial accumulation of facts, due attention is paid, both in the classification of the Pupils, and in the direction of their Studies, to this primary object, and it is deemed necessary to recommend, on all fitting occasions, the fear of God and the love of our neighbour, as the only safe foundation on which learning can rest.

A List of References to Parents whose sons have made most creditable proficiency in their Studies during their attendance at this School, may be had on personal application.

Private Lessons in Book-keeping, Rhetoric, Logic, Mental and Moral Philosophy.

N. B.—Pupils belonging to the Classical or Mathematical Department, are at liberty to pursue any branches in the Senior English Class, *without extra charge*.

*Fees payable quarterly in advance.*

Arrangements have been made for the reception of a limited number of Boarders, to whom every attention will be paid. Terms made known on application.

## ALEXANDER FLECK,

**St. Peter Street, Montreal,**

CALLS the attention of Agriculturists to the following list of **FARMING IMPLEMENTS** which he keeps constantly on hand, manufactured under his own inspection, and made of the best materials :

SCOTCH PLOUGHS,  
DRILL HARROWS,  
SCUFFLERS,

DRILL PLOUGHS,  
ARCHED and ANGLED  
HARROWS,

CHEESE PRESSES, Ayrshire  
Pattern, and the Patented Im-  
proved SUBSOIL GRUBBER.

He refers the reader to the following letter relating to the **SUBSOIL GRUBBER.**

ORMSTOWN, 15th March, 1850.

DEAR SIR,—I promised when I purchased the Subsoil Grubber from you, that I would send you a statement of its performance, as soon as I had finally tested it. You know that farmers are more ready to use an implement, and put its merits to a practical test, than to write essays; but I have been so fully satisfied with the experiments I have made, and with the value of the Grubber, as an implement so essential to the proper cultivation of the soil in a climate like ours, that I feel I would not only fail in my promise to you, but also in my duty to my brother Agriculturists generally, if I did not send you a statement, embodying the result of my experiments, and also of my opinion as to its uses and adaptation. I have used the Grubber for many of the purposes to which it may be applied—in all of which I have found it an implement highly worthy of the attention of Agriculturists. In spring, upon land which has been ploughed in the fall for summer fallow, and for tearing up and destroying twitch-grass, it has fully exceeded my expectation; it can be used much earlier than the common plough, opens the soil to a much greater depth, will do the work of six ordinary ploughs, and leaves the soil so fine as to save an immense quantity of labor in harrowing for summer fallowing and subsoiling. I find it the most valuable implement yet brought into use in Canada. Indeed I think that no farm is complete without a Grubber, which, where cultivation is carried on on a large scale, will pay itself in one season, by the saving it will effect in the labor, to say nothing of the superior preparation of the soil. Two horses are sufficient to work the Grubber, except where there is a very stiff clay soil, it may be necessary to put on a third one. I am, dear sir, your obedient servant,

GEORGE CROSS.

in a manner every way superior to any other now in use. By an arrangement of the **SUMMER APPARATUS** a very small fire is required for cooking, and no heat, (except required), need be felt in the house. Another great advantage in this Furnace is a still smaller apparatus for broiling and boiling, the smell of which is entirely carried up the Furnace, and hot water can be sent to any part of the building for baths, &c., whereby a great saving is effected both in fuel and labour.

## FIRE ENGINE AND HOSE FACTORY.

PERRY, GEORGE, 124 Craig st. See card.

## MONTREAL FIRE ENGINE MANUFACTORY,

124 CRAIG STREET.

The Proprietor would intimate that he does not intend pegging along as usual, but on the contrary, intends to keep pace with the times, and will, accordingly, keep on hand and for Sale, Small PORTABLE FIRE ENGINES (on wheels), warranted the best article of the kind in Canada, varying in price, according to size, viz. ; £6, £12 10s., £15, £20, £25, and upwards. Also SÜCTION, Portable, from £25 to £75, complete, with Copper-rivvted Hose, and made to order. First-Class Fire-Engine, from £75 to £350. Hose, Reels, Suction and Leading Hose (Oak-Tanned Leather).

The Subscriber feels confident that the Engines made by him will give satisfaction, as they are always constructed of the best materials to be found in the Province ; and it is now universally known (or should be so), that the Engine which he sent to the great Exhibition in London, beat every thing in the shape of a Fire-Engine with which it came in competition, and, no doubt, the very best in England were opposed to his. At the trial in London, Perry's Engine discharged 6 quarts of water per man, each minute, more than the best working English engine opposed to it.

All Orders punctually attended to, and numerous references to parties who have used the Engines can be given.

GEORGE PERRY.

## THE PROPRIETOR

### OF THE

# PLANTAGENET SPRINGS

Having established a dépôt for the sale of these justly celebrated waters at No. 4, Place d'Armes, Montreal, begs to inform the public that they are to be had there at all times fresh from the Springs. He has received hundreds of CERTIFICATES of their efficacy in Rheumatic, Cutaneous, Bilious, and other diseases, and they will be found peculiarly useful in all diseases arising from IMPAIRED DIGESTION and SEDENTARY HABITS, as well as those to which FEMALES are more particularly subject. Among the names of those who have certified to the salubrity and efficacy of these waters, are those of Dr. Wolfred Nelson, Dr. A. Hall, Dr. Geo. W. Campbell, Dr. Francis Badgley, and E. R. Fabre, Esq., together with hundreds of others of the highest standing in the country. Recollect the Dépôt in Montreal is No. 4, Place D'Armes. A commodious hotel has been opened at the Springs, where every desirable comfort is to be found.

No. 10 St. Joseph Street,

Manufacturer  
OF  
**CHURCH**  
AND  
**PARLOUR**  
**ORGANS**  
OF ALL SIZES  
AND DESCRIPTIONS.

**HARMONIUM**  
**ORGANS,**  
**SERAPHINES,**  
**ÆOLOPHONS,**  
AND  
*Piano Fortes.*

INDIVIDUALS and Societies who are desirous of supplying themselves with Instruments of the above character, warranted to be of superior construction, and beauty of design, will find it to their advantage to call at his Establishment and examine, and judge for themselves. Twenty-nine years of experience and careful study in his Profession have enabled him to successfully contribute to the various improvements already made in the construction of the Organ and Piano Forte. His extensive and long established Manufactory, is now supplied with the best materials, and most experienced workmen; and he is thereby enabled to compete with similar establishments in this Country or in Europe.

He would call the attention of musical people in small Towns and Villages in the Country, where they are not prepared to purchase large Organs, to his Harmonium Organs, Seraphines, and Æolophon's, of all sizes, at very low prices; and well adapted for their use, being less liable to get out of order and tune, (in the perfection they are now brought to,) than either the Organ or Piano Forte. The larger sizes of these Instruments, having from four to nine registers, give a great variety and combination of tones; and there are but few churches in the country that they are not capable of filling, while the smaller sizes make an excellent and pleasing Parlour Instrument.

Orders from the United States, and from all parts of Canada will be promptly attended to. Instruments repaired and tuned at the shortest notice.

# CRANE'S PATENT PREMIUM LABOUR-SAVING SOAP.

---

To this Popular and Celebrated SOAP was awarded the First Premium and a Diploma over all other competitors at the NEW YORK STATE FAIR held in Albany in September last; but the best testimonial in its favour is the personal experience of those who use it. All say it is the most effectual, safe, time and labour-saving preparation ever introduced. There are none of the deleterious articles in this Soap which are used in the miserable fluids, powders, and imitation labour-saving Soap, so forced upon this community, and which are calculated to destroy the texture of the Clothes washed with them, but the Chemical Preparation of this Soap is perfectly healthy, and is warranted not to injure the finest fabric.

Owing to the increased demand, the PRICE has been REDUCED. Each bar is stamped with the Manufacturer's name.

Sold Wholesale and to the Trade only, at the Manufactory, and at the Stores of

## ESSENCE OF COFFEE.

THE Subscribers would respectfully inform the Public of CANADA and the UNITED STATES, that they have now perfected their arrangements and Machinery, for the manufacture of that truly delicious and refreshing beverage, which they have, for the first time, introduced upon this Continent,

## THE ESSENCE OF COFFEE.

This article, which is manufactured by them in Montreal, under the direct superintendence of the original inventor, **Mr. Fulton**, is produced from the very purest Java and Mocha Coffees, and is so concentrated, both as regards strength and sweetness, that all which is required to furnish a most excellent cup of Coffee, is to add two teaspoonsfull of the Essence to an ordinary sized breakfast cup, and fill up with boiling water.

**The Essence of Coffee** will be found peculiarly advantageous to Hotel Keepers, as it furnishes at all times, the very best description of beverage, without a moment's loss of time, and it is well known, that Coffee made in the ordinary way, and allowed to stand for any considerable length of time, loses in a great degree, both its refreshing and aromatic qualities. Travellers, also, who are about to visit the less frequented portions of the country, will find it to conduce greatly to their comfort, to carry a case of the Essence of Coffee with them, as they will require only a little boiling water, (which article at least can always be obtained,) to furnish themselves with the required refreshment, a desideratum which will not be overlooked, nor thought lightly of, by those whose experience in travelling has been acquired out of the ordinarily frequented routes.

On the above grounds of usefulness, convenience and comfort, to which may be added the fact of the article being one of **Home Manufacture**, the proprietors are induced to hope that it will come into extensive use in the Province, and will be at all times prepared to furnish it to order in any required quantities at wholesale, at their

**Office, Common Street, Canal Wharf, Montreal.**

N. B. A liberal discount made to the Trade in Town and Country. Numerous certificates of the excellence and salubrity of the article which they furnish, from parties of the highest respectability, and standing, Medical Men and others, the British and Canadian Press, &c., can be seen at their office.

*Extract from Forsyth & Bell's annual prices current of timber, deals, &c., 1850.*

Five years ago, the quantity of sawed timber sent from Canada to the States was too trifling to demand attention, now it is so important that we give a statement of exports from one port alone, which will show how steady and progressive the trade is becoming.

Lake Champlain received from the port of St. Johns in 1847:

Of sawed lumber 7,000,000 feet broad measure.  
 1848, ..... 9,000,000  
 1849, ..... 12,000,000  
 1850, to Oct. 10, .. 31,785,941

And of square timber:

In 1847, ..... 310,000 cubic feet.  
 In 1848, ..... 750,000 "  
 In 1849, ..... 1,150,000 "  
 In 1850, ..... 1,660,000 "

## STATISTICS OF THE TRADE OF QUEBEC.

Compiled by Mr. William Lane, from the exchange books, except the statement of the export of Timber, which has been furnished by Mr. H. W. Welch, broker.

Comparative statement of the number of vessels, and their tonnage, which arrived at this port from sea, and the number of passengers that came out in them, from 1846 to 1850, inclusive:—

|           |               |               |                    |
|-----------|---------------|---------------|--------------------|
| 1846..... | 1438 Vessels. | 573,104 Tons. | 32,753 Passengers. |
| 1847..... | 1179 “        | 474,545 “     | 97,582 “           |
| 1848..... | 1044 “        | 426,968 “     | 28,261 “           |
| 1849..... | 1064 “        | 431,953 “     | 38,494 “           |
| 1850..... | 1079 “        | 434,294 “     | 32,292 “           |

The above includes the vessels that were bound to Montreal, as every vessel that enters the port is boarded and reported, whether she is for Montreal or Quebec.

Of the vessels that arrived here this year, 1850, 96 were foreign, namely:—45 Norwegian; 24 American, (U. S.); 19 Prussian; 3 Russian; 2 Portuguese; 1 Hanoverian; 1 Swedish; and 1 Dutch.

Statement shewing the number of passengers that arrived at this port during the past season, and the country whence they came.

## TIMBER TRADE.

1054 vessels cleared at this port during the season just closed, and were almost exclusively employed in the export of timber; they were nearly all of large tonnage, as will be seen by the following statement, shewing the ports they cleared for, the number of vessels to each port, and the amount of tonnage.

#### TRADE WITH THE LOWER PROVINCES,

That is, Nova Scotia, New Brunswick, Newfoundland, Cape Breton, Prince Edward Island, and Labrador.

It will be seen by the following statement, that the amount of tonnage employed in the trade between these provinces and Quebec, has more than doubled within six years past.

Total number of clearances at this port for the Lower provinces, from 1845 to 1850, inclusive:

|           |             |            |           |              |            |
|-----------|-------------|------------|-----------|--------------|------------|
| 1845..... | 73 Vessels. | 4056 Tons. | 1848..... | 138 Vessels. | 7558 Tons. |
| 1846..... | 121 "       | 6558 "     | 1849..... | 153 "        | 8728 "     |
| 1847..... | 137 "       | 7881 "     | 1850..... | 155 "        | 10,119 "   |

The above vessels were employed in the transport of provisions to these provinces, such as flour, pork, &c., &c., and their return cargoes consisted of fish, oil, West India produce, wine, and a few cargoes of salt and coal. Nearly two-thirds, however, of these vessels cleared for Halifax and St. Johns, Newfoundland, as it was from these ports that the great bulk of our West India produce was imported this year. A great quantity of herrings and oil are also received from the same ports: but the greatest part of the last mentioned articles comes from Halifax. The government of Newfoundland having declined entering into a reciprocity of free trade with Canada, on the ground that it cannot spare the revenue that arises from the duties imposed on the produce imported from Canada—particularly flour—the fish and oil coming from that Island, is consequently subjected to a duty of 12½ per cent. here, which acts as a great check to the importation of these articles from that place; in fact it amounts to almost a prohibition, as they cannot compete in our market with articles of the same description, coming from provinces with which there is free trade, as is the case with all except Newfoundland. Halifax, alone, has for many years past furnished the great bulk of the West India produce that has been imported into Quebec.

Number of vessels that cleared for each of the above provinces, this year, and the amount of tonnage.

There is also a good number of small craft employed in the transport of supplies—chiefly flour—to the Gaspé fisheries and the lumber establishments in the Baie-des-Chaleurs. A considerable quantity of the fish taken at these fisheries comes to Quebec; but it is chiefly the fish that is taken in the latter part of the season, when it is too late to dry them for a foreign market—they are then barrelled and brought to Quebec.

The trade is yet in its infancy, having only sprung up about three years ago; but it promises to employ a large amount of tonnage, if the free navigation of the St. Lawrence is thrown open to the Americans. It is, strictly speaking, a carrying-trade for the transport of heavy articles, such as railroad and pig iron, salt, fish, &c., which can be imported by the St. Lawrence, into the Western States, bordering on the upper lakes, cheaper than they can be taken by the route from New York, or any other of the Atlantic cities. A large quantity of sawed timber has been sent this year from Quebec to ports on Lake Champlain—the principal shipper of which was P. Patterson, Esq.

# DR. JAMES HOPE'S

VEGETABLE

PURIFYING

## HEALTH PILLS, A SUPERIOR FAMILY MEDICINE,

FOR Disorders of the Stomach, Liver and Bowels, such as Indigestion, Bilious Attacks, Sick Headache, Giddiness, Loss of Appetite, Lowness of Spirits, Drowsiness, Unpleasant Sensation of Fulness after Eating, Flatulency, Pain in the Stomach, Pain in the Side, Pain in and between the Shoulders, Pain in the Back, Acidity in the Stomach, Heart-Burn, Spasms, Dimness of Sight, Habitual Costiveness, and other distressing feelings arising from Dyspepsia and impurity of the blood.

All these Diseases have each something in common, each some principal of CONTINUITY, which, amid all their APPARENT VARIETY, establish their UNITY OF TYPE. ONE MEDICINE alleviates or cures all of them; and that medicine is

### Dr. JAMES HOPE'S PILLS AND BALSAM.

They are the very best remedy ever used for the above named diseases, and can be taken at any time, without any danger from wet or cold--require no restraint from business or pleasure--they act mildly and thoroughly on the bowels, without pain or griping, giving strength to the stomach and promoting a healthy action of the liver and bowels, by which they prevent or cure jaundice, clear the skin, remove sallowness and pimples, and purify the blood, brace the nerves and invigorate the whole system, instead of prostrating the strength as some other medicines do. Females at a certain age should never be without them.

The Pills and Balsam are warranted to contain no Calomel or any other deleterious ingredient.

For Sale by BUTLER & SON, London; ALEXANDER SCOTT, 508 Grand st., New York, and by

S. F. URQUHART, *General Agent*,

69, YONGE STREET, TORONTO.

## THE CASTILIAN HAIR INVIGORATOR.

IT IS HEREBY WARRANTED that this elegant preparation for the Toilet will be found to excel all others ever offered to the Public,

For the preservation and restoration of the Hair, for promoting its growth and softness, and for preventing baldness or grey hair, or its falling out; for the certain removal or prevention of scurf, or dandruff, and for the cure of tetter or ringworm, and various other skin diseases which frequently attack the head: and what is of the first importance, it is perfectly harmless, but yet completely successful for the purposes for which it is recommended. Its use gives the hair a beautifully soft, smooth and glossy appearance.

### THE CASTILIAN HAIR INVIGORATOR

Has been used for more than a century by the Nobles of Spain, but more particularly by the ladies of that Nation, who are so justly famed for their beautiful and dark glossy hair. It will retain or restore, to the latest period of life, the original colour of the hair; only causing it to assume a darker shade, if originally very light.

Extract from the Report of the Joint Committee of both Houses of Parliament:

CANADA; PAST, PRESENT AND FUTURE, by W. H. Smith.—“This work, which is now in course of publication, is a Statistical Account of Canada West. The author is already favourably known as the compiler of a useful and compendious Gazetteer of Upper Canada, and his new publication is a praiseworthy attempt to diffuse sound and accurate information respecting the Topography and General Condition of the Western Section of the Province. They, therefore, have recommended that copies to the value of £50 be purchased.”

Short extracts from a few out of the very many notices of the Press:

“We recommend it to all who desire a knowledge of the present condition of the country,”—*Globe*.

“We commend it to the favorable notice of the public, on account of its general usefulness as a depository of statistical, local and agricultural facts.”—*Colonist*.

“We would recommend every man who takes an interest in our rising Province to subscribe at once for the work.”—*Toronto Watchman*.

“The publication is really valuable, and should be liberally supported by the Canadian public. A mass of information respecting the early settlement of the western country and the rapid progress which it has made, cannot be otherwise than acceptable both at home and abroad.”—*Hamilton Spectator*.

“The information collected together in these pages is such that cannot be acquired elsewhere, and should be carefully prized.”—*British Whig*.

“We have long looked upon a work of this kind as a desideratum.”—*Pictou Gazette*.

“Those who have friends in the old country would do well to forward them copies, that they might have some idea of the extent and capabilities of this flourishing land.”—*Globe*, 2nd notice.

“Of the work we may with safety say we have never seen its equal in point of general utility, accurate statistical information, and geological description.”—*Simcoe Standard*.

“The plan laid out and adopted is an admirable one.”—*Port Hope Watchman*.

“The plan of the work is excellent.”—*Guelph Advertiser*.

“Canadian booksellers have seldom, if ever, offered to the public a work so deserving of universal support. We hope a second edition may soon be called for.”—*Dundas Warder*.

The Work is supplied to Subscribers through the medium of Travellers to all available parts of each Province.

# THE FREE TRADE HOUSE,

**No. 2, St. Lawrence Buildings, King Street, East,  
TORONTO,**

Is now fairly established as being the best and cheapest Emporium in Canada West, for

**DRY GOODS, CLOTHING, GROCERIES, CROCKERY & GLASSWARE,  
BOOTS AND SHOES, FANCY HARDWARE, &C.**

ROBERT SARGANT & Co., would call the attention of the inhabitants of Toronto, and the surrounding country to their immense stock of FANCY AND STAPLE DRY GOODS, in every variety of manufacture and style, suitable both for Town and Country Trade, and imported direct from the *British and Foreign Markets*.

A Large assortment of READY MADE CLOTHING in every material in Boy's and Men's wear, of the newest and most approved cut, and warranted the best workmanship.

Their Stock of GROCERIES, SPICES, &c., cannot be surpassed by any house in the trade for their genuine and unadulterated qualities, and their TEAS AND COFFEES in particular, have gained a high reputation for their pure and fine flavour,—together with a large assortment of CROCKERY AND GLASSWARE, direct from the Potteries, and at very reduced prices.

They would particularly recommend to the notice of the public generally, their large assortment of *Ladies', Gent's, Boy's, and Misses's* Boots and Shoes of every variety, all of which being manufactured by themselves, they are prepared to warrant equal, if not superior, to those of any other establishment.

R. S. & Co., being amongst the few merchants who import their goods direct from the Manufactories, have every advantage over most of the establishments in the city, and are thereby enabled to offer to Country dealers and the trade in general, their goods considerably lower than any other house.

**ROBERT SARGANT & CO.,**

N. B.—NO SECOND PRICE.

### THE CANADIAN FARMER.

#### THIS COOKING STOVE

Was invented by J. R. Armstrong, and Patented in June, 1850. It is peculiarly adapted for Farm Houses and Hotels, where considerable Cooking is required. This Stove took the Second Prize at the Provincial Exhibition at Niagara last year (no doubt it would have taken the first had it been as well known then as it now is.) The largest size admits wood three feet long. The Top Plate has five large holes for Boilers, and two smaller ones. It has also an extra moveable Hearth Plate, with three Boilers more; this forms a complete Summer Arrangement, and only requires a few chips for boiling a tea-kettle or other purposes, without making a fire in the body of the Stove. A Tin Reflector with a Spit can be placed in front for roasting meat to good effect. The Oven is very large, and capable of baking eight large loaves of bread at a time in a superior manner, as the bottom where the fire passes is so constructed that the superabundance of heat in the centre is diverted to the *sides*, and thereby equalises the heat in the oven. The Plates are *thick* and *heavy*, and consequently the Stove must be very durable. The Medium Size has Six Boilers, and admits wood 28 inches long, and has an Oven of the same size as the former. These Stoves have *positively* given the most *perfect* and *univereal* satisfaction of any Stoves ever before sold in *Canada*, as hundreds are ready to testify who have used them.

### THE GIANT COOKING STOVE.

This Stove was also invented by J. R. Armstrong, and Patented in April, 1851. It is more particularly adapted to Cities and Towns, where Roasting, Boiling, Baking, and Pastry Cooking are carried on to a considerable extent, and where saving of fuel is an object, and where the ease and convenience of the Cook is consulted.

The Top Plate is about  $4\frac{1}{2}$  feet long and  $2\frac{1}{2}$  wide. It has eleven Boilers, four of which are of the largest size. There is also an extra Moveable Hearth Plate, Summer Arrangement, and Roasting Apparatus similar to that of the "Canadian Farmer." The Oven is capacious and elevated, so that the Cook when placing dishes in it can stand erect, instead of being under the necessity of stooping to an inconvenient extent. The Oven, though very large, is sufficiently heated by the peculiar construction of the Stove Pipes, which heat is lost in ordinary stoves. Hence the saving of fuel by this arrangement. The Oven of this Stove being so large, and having a fire placed directly under it that it can be used as a Cooking Apparatus of itself, as it can be used for boiling as well as baking or roasting. This process will be found very useful in hot weather, as the Oven being lined with *tin*, it throws but very little heat in the kitchen. This Stove is capable of cooking for 100 persons. A less size is made for private families.

In addition to the above, the Subscribers have constantly on Sale all descriptions of

# WALKER & HUTCHINSON,

## WHOLESALE AND RETAIL

### Clothiers, Outfitters, and General

### DRY GOODS MERCHANTS,

PRINCIPAL  
ESTABLISHMENT,{ **TORONTO,** }{ No. 26, King Street,  
East.

BRANCH,

{ **HAMILTON,** }{ Corner of James and York sts.,  
near the Market.

BRANCH,

{ **LONDON,** }{ Dundas st., between Talbot & Rich-  
mond sts., opposite the Market.

At any of the above establishments, the public may rely upon finding unrivalled assortments of **READY MADE CLOTHING**; the whole of which having been made up under the inspection of the proprietors at their **IMMENSE MANUFACTORY** in **TORONTO**, from Goods purchased by one of the firm, in the best British, French, and American markets, for **CASH**, will, for **BEAUTY AND DURABILITY OF MATERIAL, STYLE AND ELEGANCE OF CUTTING, QUALITY OF WORKMANSHIP AND EXTENSIVENESS OF CHOICE**, be unsurpassed (if equalled) by any other establishment in the Province, and at much lower prices.

**GARMENTS** made to measure in the most fashionable styles, on short notice, and warranted to fit. London, Paris, and New York Fashions received monthly—the most approved styles adopted.

Hats, Caps, Shirts, Drawers, Stocks, Gloves, &c., &c., in fact, every article required for a Gentleman's outfit.

## BOYS' CLOTHING

In abundance, always on hand, or made to measure, on the shortest notice.

W. & H. fear that as they have in their advertising given the leading place to their Tailoring and Clothing departments, an error *may* have insinuated itself into the minds of some people, to the effect that their **DRY GOODS, HOSIERY, AND GLOVE** Departments are not worthy of the same recommendation. Should such a notion be at all entertained, the sooner it is got rid of the better, and the readiest way to prove that

## WALKER & HUTCHINSON

ARE AS GOOD AND CHEAP DRY GOODS MEN AS THEY ARE

## TAILORS AND CLOTHIERS,

Is that of trial, confident that a discerning public will unite with them in the belief that **NONE** but **GOOD GOODS** can be cheap at any price, they have determined upon refusing to sell the common class of merchandize, usually offered by close-cutting cash houses, and will deal in none but such goods as will give satisfaction to buyers and be a credit to themselves.

**NOTICE.**—To save trouble and time, and facilitate the business of the above establishments, purchasers are respectfully informed that every article is marked the selling price, in plain figures, from which no deduction can be made on any consideration whatever, and for the information of such as are fond of a little *tick*, they beg respectfully to say, their terms are half cash down, and the balance before they leave the shop.

Among the many advantages possessed by W. & H. are,

Ample Resources,  
Spacious Premises,  
Extensive Stock,  
Unequalled Talent,  
Unbounded Choice,  
Fashionable Designs,  
First-rate Workmen,  
Able Coadjutors,  
Cash Dealings,  
British Industry,  
American Enterprise,  
Canadian Perseverance.

## LETTERS TO THE BRITISH NORTH AMERICAN PROVINCES.

A uniform rate of 3d. per half ounce upon Letters. Newspapers, Periodicals, &c., except when addressed to publishers in exchange, must have the postage in all cases pre-paid.

## PRINTED CIRCULARS, PRICE CURRENTS, HANDBILLS, PAMPHLETS, PERIODICALS, BOOKS AND OTHER PRINTED MATTER TRANSMITTED BY POST IN CANADA.

1. Upon each Printed Circular, Price Current or Handbill, and other Printed matter of a like description, when unconnected with any manuscript or written communication and of no greater weight than one ounce, there shall be charged One penny; and for each additional ounce or fraction of an ounce, One penny additional.
2. Upon each Periodical or Magazine, Pamphlet and Book, bound or unbound, there shall be charged a rate of One half-penny per ounce.
3. Pre-payment of the foregoing rates will be optional, except when the Printed matter is addressed to the United States, and in that case the charge must invariably be pre-paid.
4. On such Printed matter received into Canada by Mail from the United States, the above Canada Rates will always remain to be collected on delivery in this Province.
5. Publishers in Canada of Periodicals and Magazines will be allowed to interchange their Publications free of postage, provided that such interchange be confined to one single copy of each Publication.

6. Circulars and other Printed Papers must be sent unsealed, and Pamphlets, Periodicals, Magazines, Books, &c., must be put up in covers open at the ends or sides to pass at the above rates; and if these Regulations are not strictly complied with, or if any such Printed Paper, Pamphlet, Periodical, Magazine or Book, be found to contain any writing other than the Address, the said Printed Paper, Pamphlet, &c., is to be rated with Letter Postage.
7. No Book or packet of Periodicals, Magazines &c., can be forwarded through the Post, if exceeding the weight of forty-eight ounces.

## BOOK POST WITH ENGLAND.

Under the authority of Her Majesty's Government, an arrangement has been made under which Printed Books, Magazines, Reviews, or Pamphlets, whether British, Colonial, or Foreign, may be sent through the Post, between Canada and the United Kingdom, at the following Rates of Postage:

	STERLING.	CURRENCY.
For a single volume, <i>i. e.</i> , Book, Magazine, Review, or Pamphlet, not exceeding half lb. in weight.....	6d.	Equal to 7½d.
For a single volume, &c., exceeding half lb., and not exceeding one lb.....	1s.	" 1s. 3d.
For a single volume, &c., exceeding one lb., and not exceeding two lbs.....	2s.	" 2s. 6d.
For a single volume, &c., exceeding two lbs., and not exceeding three lbs.....	3s.	" 3s. 9d.
And so on, increasing 1s. sterling, equal to 1s. 3d. currency, for every additional lb. or fraction of a lb.		

The above charges must always be pre-paid, on printed Books, &c., &c., sent to the United Kingdom under this Regulation, at the time of posting in Canada; and the pre-payment must be made in money, and cannot be taken in Canada Postage Stamps.

Postmasters, as with pre-paid Letters for England, must rate the Books, &c., posted under this Regulation, in *red ink*, with both the sterling rate and its equivalent in currency, charging themselves in their ordinary Letter Bills and Accounts, with the currency amounts,—thus, a Book, &c., weighing 3½ pounds, will be rated—

“Paid 4s. sterling—equal to 5s. currency.”

The following conditions must be strictly observed:

The Books, &c., must be sent in covers open at the sides.

There must be no word or communication printed on the Book, Pamphlet, Magazine, &c., after its publication, or upon the cover thereof, nor any writing or marks upon it, or upon the cover of it, except the name and address of the person to whom sent.

There shall be no paper or thing enclosed in or with such Book, Pamphlet, &c.

The Postmasters, at Offices situated West of Montreal, will forward packets of Books, &c., intended for the United Kingdom, to the Montreal Post Office, and Postmasters situated East of Montreal will forward upon the Quebec Post Office.

## REGULATIONS CONCERNING LETTERS AND NEWSPAPERS BETWEEN CANADA AND THE UNITED STATES.

1. Letters posted at any Office in Canada, addressed to any place in the United States, except California and Oregon, are to be rated with a uniform rate of sixpence, currency, per half-ounce.
2. Letters posted in any part of the United States, except California and Oregon, addressed to Canada, will be rated there with a uniform charge of ten cents, equal to sixpence currency, per half-ounce.
3. The Postage Rate on Letters passing between Canada and California and Oregon, will be a uniform charge of ninepence currency, equal to fifteen cents per half-ounce.
4. It is to be understood that the above rates include the whole charge for the transmission of a Letter between any place in Canada and any place within the United States, including California and Oregon.

5. The scale for computing the charge upon Letters weighing more than  $\frac{1}{2}$  ounce, will be the same as that for Letters passing within the Province.
6. Pre-payment of Letters passing between Canada and any place within the United States, including California and Oregon, will, in all cases, be optional.
7. Newspapers, Pamphlets, &c., posted in Canada, addressed to the United States, including California and Oregon, are, excepting such as are hereinafter differently provided for, to be forwarded through the Post at the same rates of charge as if addressed to a place within the Province; the said rates must, however, be *pre-paid*—as, if the ordinary Canada Rate is not paid at the time of posting a Newspaper or Pamphlet, &c., it cannot be forwarded to the United States.
8. United States Newspapers, Pamphlets, &c., addressed to places in Canada, will be received in the Province with the American Postage thereon pre-paid—leaving the ordinary Canada Rate of charge from the Frontier Line to the place of destination, to be, in all cases, with the exceptions hereinafter provided for, collected by the Postmaster who may deliver the same in Canada.
9. Newspapers posted by Publishers in this Province, addressed to Publishers or Subscribers in the United States, including California and Oregon, are to be forwarded through the Post in Canada, free of charge to the Province Line.
10. One copy of each United States Newspaper addressed to the Publisher or Editor of a Newspaper in this Province, is to be delivered to the said Publisher or Editor free of any Canada charge for conveyance from the Province Line.
11. Printed Documents coming from the United States, addressed to the Publisher or Editor of a Newspaper in this Province, are to be delivered to the said Publisher or Editor free of any Canada charge—such Documents must be without covers, or in covers open at the ends or sides.
12. The Canada Postage Stamps, when used, will be taken in the United States as evidence of pre-payment of Postage on Letters going from Canada to the United States, and in like manner the United States Postage Stamps on Letters coming into Canada, are to be taken by Postmasters in this Province as evidence of pre-payment having been made in the United States.
13. The following are appointed to be the Offices in Canada through which the Post communication with the United States will be maintained, and to which Postmasters are to forward their Mail matter for the United States, according to the relative position of their several Offices :

PORT SARNIA,  
WINDSOR,

#### EXTRACT FROM REGULATIONS TO BE OBSERVED BY ALL POSTMASTERS.

When the numbers of a Newspaper, published in the Province of Canada and issued *daily*, have been allowed to remain in the Post Office under your charge, uncalled for during two weeks,—of a Newspaper issued *semi* or *tri-weekly* during three weeks,—of a Newspaper issued *weekly* during one month, and of a Monthly Periodical during two months,—or when such Newspapers or Periodicals shall have been refused to be taken by the party to whom the same shall be addressed, it shall be your duty forthwith to address and return the same to the respective Publishers, stamping them with the Postmark of your Office, and writing on them, "*refused*," "*not called for*," "*removed*," or "*dead*," as the case may be. Such Newspapers or Periodicals to be returned by you free of charge.

You will take credit for any postage which may have been charged against you upon any such Newspapers or Periodicals, in the ordinary form, No. 2, in the same manner as with *mis-sent* and *mis-directed* Newspapers.

The Province acquired the right to the Lands on the Eastern and Northern shores of Lakes Huron and Superior, by a treaty which was concluded on the 9th of September, 1850, at Sault St. Marie. By the terms of the Treaty Two Thousand Pounds, Currency, was paid down to the Indians, and a perpetual annuity of Six Hundred Pounds, Currency, secured to them. The Commissioner on the part of the Government, was the Hon. William B. Robinson, and on the part of the Indians, the following Chiefs and Head-men were present:

Shinguacose, Nebenaigoching, Keokonse, Mishequonga, Tagawonini, Shabokeshick, Dokis. Ponekeosh, Windawtegowinini, Shawenakeshick, Namassin, Naoquagabo, Wabakekek, Kitchipopegun, by Papasainse, Wagemaké, Pamequonaishaing, Chiefs, and John Bell, Paqwatchinini, Mashekyash, Ictowekesis, Waquacomick, Ocheek, Metigomin, Watachewana, Minwawapanasse, Shenaquoqum, Ouingegum, Panaissy, Papasainse, Ashewasiga, Kageshawawetung, Shawonebin, and also Chief Maisquaso, (also Chiefs Muckatamishoquet and Mekis,) and Mishoquette, and Asa Waswanay and Pawis—principal men of the Ojibway Indians.

#### RESERVATIONS MADE FOR THE INDIANS ON LAKES HURON AND SUPERIOR.

- 1st. Panepuonaishaing and his band, a tract of land to commence seven miles from the mouth of the River Maganitawang, and extending six miles East and West, by three miles North.
- 2nd. Wagamake and his band, a tract of land to commence at a place called Nekickshegeshing, six miles from East to West, by three miles in depth.
- 3rd. Kitcheposkissigun, (by Papasainse) from Point Grondine westward, six miles inland, by two miles in front, so as to include the small Lake Nepinassung, (a tract for themselves and their bands.)
- 4th. Wabakekek, three miles front near Shebawenaning, by five miles inland for himself and band.
- 5th. Namassing and Naoquagabo and their bands, a tract of land commencing near Lacloche, at the Hudson Bay Company's boundary, thence westerly to the mouth of Spanish River, then four miles up the south bank of said River, and across to the place of beginning.
- 6th. Shawenakeshick and his band, a tract of land now occupied by them, and contained between two Rivers called White Fish River, and Wanabitasabe, seven miles inland.
- 7th. Windawtegowinini and his band, the peninsula east of Serpent River, and formed by it, now occupied by them.
- 8th. Ponekeosh and his band, the land contained between the River Mississaga and the River Penewabecung, up to the first rapids.

9th. Dokis and his band, three miles square at Wanateyakokaun, near Lake Nipissing, and the Island near the Fall of Okickendawt.

10th. Shabokeshick and his band, from their present planting grounds on Lake Nipissing to the Hudson Bay Company's Post, six miles in depth.

11th. Tagawinini and his band, two miles square at Wanabitibing, a place about forty miles inland, near Lake Nipissing.

12th. Keokonse and his band, four miles front from Thessalon River, eastward, by four miles inland.

13th. Mishequanga and his band, two miles on the Lake shore east and west of Ogawammang by one mile inland.

14th. Shinguaconse and his band, a tract of land extending from Maskimongé Bay inclusive, to Partridge Point above Garden River on the front, and inland ten miles throughout the whole distance, and also Squirrel Island.

15th. For Nebenaigoching and his band, a tract of land extending from Wanabekinegunning, west of Gros Cap, to the boundary of the lands ceded by the Chiefs of Lake Superior, and inland ten miles throughout the whole distance, including Batchewananing Bay, and also the small island at Sault Ste. Marie, used by them as a fishing station.

The Treaty was attested to and sealed by the following Indians, and signed by the other witnesses.

[illegible]

\*In this amount is included £2785 17s. 3d. of bonds received for dues for previous years.

The Works sold in accordance with the provisions of the 12th and 13th sections of the Act passed in the 12th year of Her Majesty's Reign, intituled, An Act for the better management of the Public Debt, Accounts, Revenue, and Property, were disposed of upon the following terms.

1. The Capital of the Company to be not less than the cost of the road or work, five per centum of the Capital to be paid up in cash, and in two years from the date of such payment, annual instalments of five per centum to be paid in, until the whole subscribed capital is paid up.
2. Five per centum interest on the amount of purchase on each work to be paid semi-annually in all cases, and in default of payment of interest by the Company purchasing the road or work, the Government to be empowered to enter upon possession of the work, and all payments made to be forfeited.

3. Stockholders to be liable to the extent of their subscribed capital.

4. The rates of toll for the use of the roads to be governed by the provisions of the Acts, 12 Vict., chap. 36, for Lower Canada, and the regulation and management of the roads generally to be under the provisions of these Acts respectively.

5. The rates of toll for the use of harbors to be the same as are at present collected; vide proclamation of 1st November, 1847, with liberty to add 50 per cent thereto.

6. Vehicles carrying Her Majesty's Mail to be exempt from toll, as well as Officers of Her Majesty's Sea and Land Forces, and all other parties exempted by the Act 7 Vict., chap. 14, and 12 Vict., chap. 25.

7. A reservation to be made in favor of Municipal Corporations, for the purchase of any work in Upper Canada, in the terms of the 38th section of the Act 12 Vict., chap. 94, and in Lower Canada in the terms of the Act passed in the same reign, chap. 36,—the period in both cases of twenty one years, to date from the day of sale.

In a few of the above districts, no account has been kept of articles not liable to duty, such as grass seeds, &c., which occasions some deficiency as such entries constitute a considerable item in other districts.

No statement of the imports into the district of Michilimakinac has been obtained, in consequence of the communication not having been open with the Sault Ste. Marie, at the time the port was visited.

## MILL STONES—

The localities of granitic and syenitic boulders strewn about the country, and used for mill stones, are too numerous and too accidental to be stated; these boulders are derived chiefly from the granitic or gneissoid rocks, which range on the north side of the Ottawa and St. Lawrence, from Lake Superior to Labrador. Independent of them various rocks *in situ* are and may be used for the purpose, such as—

*Silicious Conglomerate*—Vaudreuil Seigniory, Cascades, and Pointe du Grand Detroit; Ham, range 11, lot 10; Port Daniel, at L'Ance à la Veille.

*Granular and Corneous Quartz Rock*—This rock accompanies the serpentine of the Eastern Townships, (for the range of which see Marble,) and occurs in too many places to be enumerated; a good sample has been obtained by the Hon. Mr. Knowlton from Bolton, range 6.

*Granite*—Stanstead; Barnston; Barford; Hereford; Ditton; Marston; Strafford; Weedon; Vaudreuil Beauce Seigniory, near the band of serpentine. (The Vaudreuil Beauce stone is highly esteemed.)

*Pseudo-Granite (without Quartz grains)*—St. Thérèse, Belœil, Rougemont, Yamaska, Shefford, and Brome mountains.

**GRINDSTONES**—A sandstone designated as the grey band which lies at the summit of the red strata of the Medina sandstones, and which reaches from Queenston by St. Catharines, and round the extremity of Lake Ontario by Hamilton, to Esquesing, and thence to Nottawasaga, has been used in some of the northern Townships for grindstones.

Some parts of the Potsdam sandstone have been used for the purpose, as in Allumettes, at the Allumettes Falls; and in Fitzroy, at Shirreff's mills.

Some parts of the Gaspé sandstone, in Gaspé Bay, would yield grindstones, but though these might prove the best of the Canadian stones, none of them would equal those of New Brunswick and Nova Scotia, or those of Newcastle, in England.

**WHETSTONES AND HONES**—Madoc, range 5, lot 4; Marmora, range 6, lot 22; Lake Mazinaw, rear of Palmerston; Fitzroy, Whetstone Point, Lake Chaudière; Potton, range 11, on Magog Lake; Stanstead, from Whetstone Island, in Magog Lake, by range 5, lots 19 and 20, and range 7, lot 26, to range 9, lot 28; thence through Hatley, to range 9, lot 3, on Massawippi Lake; Stanstead, range 9, lot 4; Bolton, range 14, lot 5; Shipton, range 14, lot 19, and range 5, lot 16; Marston, on Megantic Lake.

**CANADIAN TRIPOLI**, *a silicious infusorial deposit*—Augmentation to Lanoraie and Dautraie Seigniory.

#### *Materials for Paving, Tiling, &c.*

#### **ROOFING SLATES**—

Kingsey, range 1, lot 4; Halifax, range 1, lot 14; Frampton, on the land of Mr. Quigley.

#### **FLAG STONES**—

Toronto, Rivers Credit, Little Mimico, and Etobicoke; Etobicoke, River Humber; York, East Branch of River Don; Lake Temiscamang, 7 miles below the Galère; Bagot, at Calaboga rapids; Horton and Clarendon, at the Chenaux; Sutton, range 2, lot 19; Potton, range 10, lot 28, at Potton Ferry; Stanstead, east side of Memphremagog Lake, for some miles above the Outlet; Inverness, range 2, lot 5; Port Daniel, l'Ance à la Vielle.

#### *Building Materials.*

#### **GRANITE** *of superior quality, white, and cleavable*—

Stanstead, ranges 4, 5, 6, 7, lots 1, 2, 3, 4, 5, 6; range 9, lot 4 to range 11, lot 13; Barnston, range 9, lot 1; ranges 10 and 11, lots 7 to 15; Barford ranges 1 and 2, and lots 5 to 9; Hereford, ranges 4 and 5, lots 19 and 20; Marston, 1½ miles from upper end of Megantic Lake; Great Megantic Mountain, occupying an area of 12 square miles, about the United corners of Marsden, Hampden, and Ditton; Little Megantic Mountain, 6 square miles in Winslow, about 1½ miles south-west from line between Aylmer and Gayhurst; Weedon, 1 mile south-east of Lake Louisa; Winslow, 3 miles long, about 5 miles south-east of Lake Aylmer; Strafford, 1 mile, and 3 miles up Felton River; also 6 miles from foot of Lake St. Francis; Lambton 6 miles from foot of Lake St. Francis.

#### **PSEUDO-GRANITE** *without quartz grains, white, cleavable*—

St. Thérèse, Belœil, Rougemont, Yamaska, Shefford and Brome Mountains.

#### **SANDSTONE** *yellowish white*—

Niagara, at Queenston; Barton at Hamilton; Flamborough West; Nelson; Nassagaweya; Esquesing, range 5, lot 17; range 6, lot —; Mono; Nottawasaga, Cayuga, range —, lots 45 and 46; Rigaud Seigniory, Rivière à la Graise; Vaudreuil Seigniory, Pointe Cavagnol; Isle Perrot; St. Eustache; Terrebone Seigniory; Beauharnois Seigniory; St. Maurice Forges; Allumettes; Fitzroy.

## CALCAREOUS SANDSTONE—

Rideau Canal ; Bytown ; various parts of Ottawa, north side from Bytown, to Papineau Island ; various places from Grenville to Point Fortune ; Brockville ; Murray Bay, at Les Ecorchats, and White Cape, and the lots of J. B. du Berger and T. Chaperon ; Lauzon Seignior, at St. Nicholas ; Cap Rouge near, Quebec.

## LIMESTONE—

Malden ; Manitoulin Islands, along the south side ; St. Joseph Island ; Coast of Lake Huron, from Cape Hurd to Rivière au Sable (north) ; various parts from Cabot's Head to Sydenham, in Owen's Sound ; and from Sydenham, by Euphrasia to Nottawasaga ; thence by Mono to Esquesing, and by Nelson to Ancaster ; Thorold ; Matchedash Bay ; Orillia ; Rama ; Mara and various parts to Marmora ; Madoc ; Belleville ; Kingston ; MacNab ; Bytown ; and various parts to Plantagenet and Hawkesbury ; Cornwall ; Isle Bizard ; Beauharnois Island ; Caughnawaga ; Montreal ; Isle Jésus ; Terrebonne ; Phillipsburgh ; St. Dominique ; Grondines ; Deschambault ; Beauport ; Bay St. Paul ; and Murray Bay ; Upton ; Acton ; Wickham ; Stanstead ; Hatley ; Dudswell ; Temiscouata Lake ; Gaspé ; Port Daniel ; Richmond ; Anticosti Island.

LIME—*Common*—In the various localities above enumerated for limestone.

*Magnesian*—In the localities indicated for dolomite.

*Hydraulic*—Point Douglas, Lake Huron ; Cayuga, half a mile and  $3\frac{1}{2}$  miles below the Village, on the Grand River ; Thorold ; Kingston ; Nepean, near Bytown ; Argenteuil ?

*Materials for Bricks, Tiles and Pottery.*

CLAY—*For Red Bricks*—This is so widely spread in the valleys of the St. Lawrence, Ottawa, Richelieu, &c., that the localities are too numerous to be mentioned.

*For White Bricks*—York, range 2 from the Bay, lots 19 and 20 ; Peterborough.

*For Tiles and common Pottery*—All the same localities.

## MARBLE—

*White*—Dudswell ; exit of Lake Mazinaw, rear of Palmerston (a dolomite.)

*Black*—Cornwall ; Phillipsburg.

*Brown*—Packenham, at Dickson's mill.

*Grey and Mottled*—McNab ; Phillipsburg ; St. Dominique ; Montreal.

## LEGAL TENDERS OF COINS.

The Currency Act provides that the British sovereign of full weight, and the American eagle of eleven dwts. six gr. troy, coined before July, 1834, and all their multiples and subdivisions, shall be a legal tender, the former at £1 4s. 4d., the latter at £2 10s.; and if not more than two grains less than full weight, each coin shall continue to be by tale to any amount, at a deduction of 3d. currency, for each quarter grain. Provided that, in legal tenders, if the payment exceed £50 currency, either party may insist on such coins being weighed in a lump, and to be legal tender at the rate, the British of 94s. 10d. currency per oz. troy, and the United States coins at that of 93s. currency.

In like manner the gold coin of France of forty francs with its divisions and multiples, at 93s. 1d. currency, per oz. troy; the old doubloon of Spain, or quadruple pistole, the Mexican and Chilian doubloon, at 89s. 7d. currency, per oz. troy; the gold coins of La Plata and Columbia at 89s. 5d. currency, per oz. troy; the gold coins of Portugal and Brazil at 94s. 6d. currency, per oz. troy;—all these if coined before Sept. 1, 1841, are legal tender for sums above £50, weighed out at the above rates.

The following silver coins are legal tender:

The silver dollar of Spain, the United States, Peru, Chili, Central America, the States of South America, and of Mexico, if coined before the year 1841, and weighing seven-teen dwts. four grs. troy, at 5s. currency; and the half-dollar of the same coinages and proportionate weight, at 2s. 6d.; to any extent, by tale.

Their subdivisions—the one-fourth dollar for 1s. currency; the one-eighth for 6d. currency; the one-sixteenth for 3d.; are legal tender to the extent of £2 10s. at one time, by tale, if they have not lost more than one-twenty-fifth of their weight. The United States quarter dollar retains its former value of 1s. 3d. currency, as do also the smaller silver coins.

The French five-franc piece coined before 1841, in tale for any amount at 4s. 8d.

The British crown at 6s. 1d. currency, which, with other descriptions of British coin lawfully current in Great Britain and Ireland, of proportionate weight, are legal tender to the amount of £2 10s. currency, and no more.

The Governor General can by proclamation include among legal tenders the more recent coinages of those nations of the values specified, having verified their pureness.

£100 sterling is equal to £121 13s. 4d. currency, and is deemed par of exchange.

To bring sterling into currency, add 1-5th to the sterling amount and 1-12th to the 1-5th; and to reduce currency into sterling, multiply by 60 and divide by 73.

The basis of the currency is the imperial gold standard, differing from sterling money in the different nominal value of the pound and its constituents..

The pound sterling is by law fixed at *Twenty-four shillings and four-pence* currency. At this rate all large transactions are settled, and remittances, with the correction of the day for exchange, are calculated.

One pound currency, contains four dollars.  
 One dollar currency, contains five shillings.  
 One shilling currency, contains two sixpennies.  
 One sixpence currency, contains six pennies.  
 One penny currency, contains two coppers.

The value in sterling of the pound currency is rather over . . . . . 16s. 5½d.  
 The dollar currency rather over . . . 4s. 1½d.  
 The shilling currency rather over . . . 9½d.  
 The sixpence currency rather under . . . 5d.

But in retail transactions an approximation is made to the value of the coins current in Britain and the United States, and in small purchases the following are the rates at which such coins are usually taken:

BRITISH.		AMERICAN.	
The Sovereign.....	£1 4s. 6d.	Eagle.....	£2 10s.
The Crown.....	6s. 1d.	Dollar.....	5s.
Half Crown.....	3s. 0½d.	Half-dollar.....	2s. 6d.
Shilling, called Trente-Sous.....	1s. 8d.	Dime, or Ten Cents.....	6d.
Sixpence " Quinze-Sous.....	7½d.	Real, or York Shilling.....	6d.

A Shilling sterling and a quarter of a dollar are taken in the stores as equal. The exchangeable value of the dollar, of course, varies with the course of exchange between the Provinces and the United States, which is principally ruled by that between New York and London. In general, its value is about 4s. 2d. sterling.

The Shilling currency is sub-divided into twenty-four copper coins, called Coppers. Coins of this metal, of Colonial, British and American origin, and of various denominations, are common, and each is pretty generally taken as the equivalent of a copper, without much reference to its intrinsic value. The English Penny, Half-penny, and Farthing, of not less than five-sixths of the weight of currency, is a legal tender to the amount of 12d. The following coins are also usually taken at the rates specified:—

French Crown.....	5s. 6d.
" Half Crown.....	2s. 6d.

## LAW COURTS.

COURT OF APPEAL, U. C.—The judges of the courts of Queen's Bench, Chancery and Common Pleas. Clerk—John Shuter Smith.

COURT OF CHANCERY, U. C.—The sittings are four in the year, each lasting for two weeks, and commencing respectively on the second Mondays in January and April, and the first Mondays in July and December. Long vacation from the 15th of August to 1st October. Court days, Tuesdays and Fridays.

COURT OF QUEEN'S BENCH, U. C.—The circuits are held twice a year in each county, between Hilary and Easter terms, and between Trinity and Michaelmas terms, except in the county of York where there are three in each year, commencing on the first Monday in January, May, and November, respectively.

LAW TERMS.—Hilary, Feb. 3; Easter, June 2; Trinity, August 25. Michaelmas, Nov. 17. The long vacation commences 1st July, and ends 21st August.

COURT OF PROBATE, U. C.—Official principal—S. Brough, Toronto; registrar—C. FitzGibbon, Toronto.

DIVISION COURTS, U. C.—For the summary disposal of causes by the county judges. In certain cases juries are granted. Courts are held once in two months in each division, or oftener, at the discretion of the judge. The divisions are established by the court of Quarter Sessions. (For divisions established, see *Municipal Manual* for U. C.) The jurisdiction of the court extends to cases of debt or account, or breach of contract or covenant, or money demand, whether payable in money or otherwise, where the amount or balance claimed does not exceed £25, and all torts to personal chattels to the amount of £10. (A plaintiff may not divide his claim, so as to bring it by more-

than one suit within the jurisdiction of the court, but he may abandon the excess, provided the amount in dispute does not exceed £50, and thus sue for the restricted amount of £25.) Suits to be tried in the division where the defendant resides, or the debt, &c., was contracted. Servants under age may sue for wages in this court. Judgments recoverable against goods and chattels in certain cases. Where judgments exceed £10, it will affect lands. Attachments may issue against the goods and chattels of absconding or concealed debtors, going from one county to another in Upper Canada, or to Lower Canada, or leaving the province.

**COUNTY COURTS, U. C.**—Presided over by a resident judge in each county. The jurisdiction of the court extends to all causes relating to debt, covenant or contract, to the amount of £50; and in causes of debt or contract, where the amount is ascertained by the signature of the defendant, to £100; and also in all matters of tort relating to personal chattels, where the damages shall not exceed £30, and where title to land shall not be brought in question. The plaintiff at his option may bring these suits in the courts of Queen's Bench or Common Pleas, but County Court costs will only be allowed.

**INSOLVENT DEBTORS' COURT, U. C.**—The county judge in each county presides in this court for the relief of insolvent debtors.

**QUARTER SESSIONS, U. C.**—Chairman—the county judge in each county, who with one or more justices of the peace, holds a court of Quarter Sessions in his county four times a year, for trials by jury in cases of larceny, misdemeanor and other minor offences. The court also grants tavern licences, and has the supervision of accounts in the county, relating to the administration of justice, &c. Sittings—first Tuesday in January, April and July, and third Tuesday in November, with power of adjournment.

**HEIR AND DIVISEE COURT, U. C.**—Commissioners—the judges of the court of Queen's Bench, the vice-chancellor, and such other persons as may be appointed by commission under the great seal. Their duties are to determine claims to lands in Upper Canada, for which no patent has issued from the crown, in favour of the proper claimants, whether as heirs, devisees, or assignees. Sittings at Toronto first Monday in January and July in each year.

## RELIGIOUS, EDUCATIONAL, AND LITERARY STATISTICS.

The number of Clergymen of all Denominations in Canada, at the beginning of 1851, may be stated as follows :

<i>Clergymen.</i>	<i>L. Canada.</i>	<i>U. Canada.</i>	<i>Clergyman.</i>	<i>L. Canada.</i>	<i>U. Canada.</i>
Roman Catholic,	464	79	Brought forward,	638	835
Church of England,	95	147	Primitive Methodist,	—	19
Wesleyan Methodist,	20	177	Bible Christian,	—	15
Baptist,	13	109	American Presbyterian,	1	—
Methodist Episcopal,	—	98	Unitarian,	1	—
Church of Scotland,	17	52	Jewish Synagogue,	1	—
Free Church,	6	59			
Congregationalist,	12	35		641	869
United Presbyterian,	5	40			641
New Connexion Methodist,	6	39			
Carried forward,	638	835	Total,		1510

The proportion of clergymen to the population in Lower Canada, is as 1 to 1190—in Upper Canada, as 1 to 870.

In addition to those above enumerated, there are many occasional or local preachers, particularly among the Wesleyan Methodists.

124 stations are reported as “vacant,” or destitute of regular ministers, viz : Free Church 53 ; Church of Scotland 39 ; Congregationalist 10 ; United Presbyterian Synod 9 ; Baptist 7 ; Wesleyan Methodist 6.

The Province is divided by the Roman Catholics into five dioceses, viz :—

Quebec (Archbishop). . . . .	215 Clergymen.
Montreal, . . . . .	249 “
Bytown, . . . . .	17 “
Kingston, (with a coadjutor). . . . .	26 “
Toronto, . . . . .	36 “

The Province is also divided by the Church of England into three dioceses, viz :—

Quebec, . . . . .	40 Clergymen.
Montreal, . . . . .	55 “
Toronto, . . . . .	148 “

The Province is further divided by the Wesleyan Methodists into eleven Districts ; by the New Connexion and Episcopal Methodists into six each ; and by the various Presbyterian Churches into Presbyteries, as follows, viz :—Church of Scotland, six ; Free Church, eight : United Presbyterian Synod, five.

In connexion with many of the Congregations there are Sunday Schools. The number of those Institutions is about 600.

## II. EDUCATION.

In Upper Canada, there were in January 1851, 2871 Schools, with 3209 Teachers, and 138,465 Scholars. In Lower Canada, there were 1794 Schools, 167,982 Scholars. Upper Canada has also a Normal School, the advantages of which have been already participated in by upwards of 600 Teachers, and a Council of Public Instruction.

In addition to the Elementary Schools in Lower Canada, there are the Schools of the “Christian Brothers,” containing about 4000 pupils, and Nun’s Schools, with 2000 pupils.

For the support of elementary schools the Legislature has voted £50,000 per annum for these nine years past, in addition to the salaries and incidental expenses of the Education Department, which are charged on the Consolidated Fund.

The Upper Canada Grammar Schools, twenty-five in number, are supported by a Special Fund, arising out of the lands set apart for this purpose in the reign of George III. The present annual income is about £4,500, and it is increasing.

In the Lower Province, are the “High Schools” of Montreal and Quebec, certain “Academies” in the Eastern Townships, and the Roman Catholic “Seminaries” or “Colleges.” The Seminary at Quebec contains 22 Professors, and 385 Students ;—in the “College” at Montreal there are 18 Professors, and 250 Students. The other Colleges, nine in number, are situated in different parts of the Province, and are numerous attended by those who design to enter the learned professions. They contain about 1500 Students. Most of these Institutions, with several others, not named, and four Schools for Indians, receive aid from the Legislature.

A University Education with the opportunity of obtaining degrees, may be enjoyed in Upper Canada at the University of Toronto, which is supplied with twelve Professors ; at Trinity College, Toronto, now in course of organisation, at Queen’s College, Kingston, where there are five Professors ;—and at Victoria College, Cobourg, which has two Professors and three Tutors. There are also the Roman Catholic Colleges of Regiopolis, Kingston, with six Professors—and Bytown, where there are two, and a Superior.

Similar advantages are offered at M’Gill College, Montreal, under two Professors and three Lecturers, and in the Medical Department, which stands deservedly high, there are eleven Professors, and 52 Students.

Theological instruction is imparted to Candidates for the Christian Ministry at the following places :—At Trinity College, Toronto and at Lennoxville, (L. C.,) to Church of England Students—at Queen’s College, to Church of Scotland Students—at Knox’s College, Toronto, to Free Church Students—and at the Congregational Theological Institute, and the Divinity Hall of the United Presbyterian Synod, in the same city, to the Students of those Denominations. Roman Catholic Candidates for the priesthood, study at such of the existing Colleges as may be indicated to them by the proper authorities.

## III. LITERATURE AND SCIENCE.

Mechanics’ Institutes are established in our principal cities and towns.

The Historical Society of Quebec, founded in 1824, under the auspices of Earl Dal-

housie, is the only institution of the kind in Canada. Three volumes of its transactions have been published, containing much curious information. Besides its Library, rich in historical lore, the Society possesses some very valuable manuscript documents, relating to the history of Canada.

The Natural History Society of Montreal, established in 1826, has a good Library, furnished with the best scientific works, and an extensive Museum.

Mercantile Library Associations have been formed in Quebec, Montreal, and several other places, and have been productive of great benefit.

The number of volumes in the Libraries of the following Institutions, is thus reported:—

Quebec Mechanics' Institute (founded 1830,) 100 Members, . . . . .	2000	Institut Canadien, (founded 1844,) 230 Members, . . . . .	700

Montreal Mercantile Library Association, (founded 1840,) 480 Members, . . . . .	3866		

#### IV. AGRICULTURE.

Great encouragement has been wisely afforded by the Legislature to the Agricultural interest. The pecuniary grants during the past year amounted to £11,200, and the estimates for the current year include £10,000 for the same purpose, equally divided between Upper and Lower Canada, and then distributed among the County Agricultural Societies, to be added to local subscriptions, thus forming a fund from which the premiums to successful competitors at the Agricultural Shows are paid.

## EMIGRANT DEPARTMENT.

A. C. Buchanan, chief emigrant agent, Hunt's wharf, Quebec.

Andrew Conlan, sub agent, Canal wharf, Montreal.

A. B. Hawke, sen., chief agent, Upper Canada, Scott st., Toronto.

A. B. Hawke, jun., sub agent, Kingston.

Emigrants to this country, whether intending to settle in Canada or any of the North Western States of the American Union, will find the route by the St. Lawrence decidedly the cheapest, and when once landed at Quebec, the one also by which they can most rapidly and economically reach their destination.

The causes of this advantage may be found in the large number of ships which come to Quebec in ballast for cargoes of timber, the owners of which generally find it to be their interest to take passengers at a very low rate of fare, rather than that their vessels should earn nothing upon the outward passage.

Parties intending to emigrate to Canada, should, if possible, make their arrangements so as to leave Europe about the end of March or beginning of April, as by doing so they are likely to arrive here at a time of the year when work is plenty and labour in demand. Those who intend to settle in the country, especially farmers, or farm labourers, should on no account remain any length of time in the cities or large towns, as they will find their means rapidly diminish, and the chances of a good investment, or of permanent

and profitable employment, less than in the more recently opened up settlements. Interested parties in the towns may represent matters in a different light to them, but they may rest assured, that except under very peculiar circumstances, the facts will be found as here stated. With regard to mechanics, the same observations will, as a general rule, be found equally applicable, in almost all the considerable towns, a sufficient number of hands are already to be found in every requisite department, and it is in the newly opened settlements that they also will find the best field, and the richest reward for their labours.

Manufactures in Canada are as yet in their infancy. It is true, a considerable quantity of iron wares, axes, &c., are produced annually, and of an excellent quality, coarse woollen goods, blankets and cottons are also manufactured to some extent, but the demand for labour in any of these departments is not such as to justify the expectation that any considerable number of additional hands would meet with ready employment.

Canada, nevertheless, although not a manufacturing country, presents an immense field for the enterprize and energy of a hardy and industrious population, the quality of the lands now open for settlement, especially upon the River Ottawa, and its Tributaries, and in various sections of Western Canada, is unsurpassed in excellence, and although cereal crops cannot be grown to such advantage in Lower Canada, yet as a country suited to raising green crops and feeding stock, (for which there is a constant demand, at good prices,) it also presents a good field for settlers.

The railroads now in course of construction, or about to be commenced within a short period, will furnish employment to a multitude of hands for years to come, and the great staple of Canada, her forests, will for an indefinite period give full employment to thousands of hardy woodmen.

The following observations which we extract from the "Montreal Gazette" of August 20th, 1851, presents a more particular account of the advantages offered to settlers upon the Ottawa:—

"OTTAWA EMIGRATION.—Our attention has been drawn to the subject of Emigration, by a circular which we received from A. C. Buchanan, Esq., the government emigrant agent at Quebec, by which it appears it is intended to settle the valley of the Ottawa with emigrants. What the class or condition of these may be, we are not aware of at present; but we sincerely trust, that those selected for location in the counties bordering on the Ottawa, will be a peaceable, industrious and loyal people.

The land on both sides of the Ottawa from Pembroke upwards, is exceedingly fertile, and affords immense facilities for settlement; the high wages offered to labourers, and still higher remuneration given to mechanics and artisans, are inducements to settlers of every grade, to make the valley of the Ottawa their forest home—their adopted country—the land of patriotic industry, and the nursery of principles calculated to promote in every way the onward progress of civil and religious liberty. The valley of the Ottawa from Montreal to Lake Nipissing—from civilization and enlightenment, to solitude and semi-barbarism—from the elegant mansions of the wealthy, to the wigwam of the savage—possesses resources hitherto undeveloped, and almost unknown. The tide of emigration, if properly directed to this section, will no doubt tend to develop many of those internal resources as yet remaining in embryo. In whatever direction we turn, there are to be found thousands of acres of land, that invite to settlement, and will afford the industrious settler a generous return for his labour. The European serf, who toils with want, with misery and privation, can here find a wild waste, which his steady and well-regulated exertions alone are necessary to transform to a land, teeming with plenty, that will thenceforward secure to him competence and comfort, and enable him at last to lay down his head with the solacing consciousness, that he has left behind him a heritage, sufficient for the wants of his family."

**BYTOWN AND THE OTTAWA RIVER SETTLEMENTS—TO EMIGRANTS REQUIRING EMPLOYMENT OR SEEKING LOCATIONS FOR SETTLEMENT.—**

Owing to the diversion of the route of emigrants proceeding to the West from the Ottawa and Rideau Canal route to that of the St. Lawrence, but few emigrants have proceeded during late years to that section of the country; consequently, labourers, are now much wanted, and the rates of wages have considerably increased.

The lumber trade of the Ottawa, which annually requires from 25,000 to 30,000 men, is now, owing to the increased demand for that great staple of the country, about to be much extended; and as almost all those who transact this business are largely engaged in farming, a most favourable opportunity is now offered to emigrants to proceed to that section of the country: good active men will get, the first year, from £2 to £3 per month with their board; and, after they have become acquainted with the work of the country and acquired the necessary skill, they will be competent to earn the highest wages, £3 10s. to £4 per month, or from £35 to £40 per annum.

Crown lands, and those belonging to private individuals, can be obtained on more reasonable terms than in any other section of the province; and farmers receive the highest cash prices for all the surplus produce they may have to dispose of.

Apart from the demand for labour which the lumber trade affords, a large amount of money is to be expended on the following public works:—a timber slide at Portage du Fort, a new road from Bytown to Pembroke, a plank road from Bytown to Bell's Corn, Bytown and Prescott railroad, and a road to connect the waters of the Ottawa with Lake Huron, on which works a large number of labourers will be required.

The following gentlemen, resident in the neighbourhood, will furnish on application, all needful advice and information; and they have undertaken to give the fullest directions to emigrants, whether their object be labour or settlement:—

Joseph Aumond, Esq., Bytown; Messrs. C. & R. McDonnell, Bytown; John Egan & Co., Aylmer; John Foran, Esq., Aylmer; Robert Conroy, Esq., Aylmer; Alexander McDonnell, Esq., Sand Point, township of McNabb; Thomas O'Neil, Esq., Castleford, township of Horton; John Poupard, Esq., Westmeath; John Supple, Esq., Pembroke; D. O'Meara, Esq., Pembroke; J. M. Ferres, Esq., Montreal.

#### ROUTE AND MODE OF CONVEYANCE.

From Montreal to Bytown by steamer daily, 120 miles; Bytown to Aylmer, by land, 7 miles; Aylmer to Sand Point, by steamer, 45 miles Sand Point to Castleford, by steamer, 8 miles; Castleford to Portage du Fort, by steamer, 9 miles; Portage du Fort to Pembroke, by land and water, 33 miles.

Emigration Department,  
Quebec, August 11, 1851.

A. C. BUCHANAN,  
Chief Agent.

#### USUAL RATES OF FARE FOR EMIGRANTS.

From Quebec to Montreal, steamboat, 180 miles,	2s.	to 3s.	Sterling.
" " Bytown, " 303 "	10s.	to 11s. 6d.	"
" " Kingston, " 380 "	10s.	to 11s.	"
" " Toronto, " 560 "	13s.	to 15s.	"
" " Hamilton, " 605 "	14s.	to 16s.	"
" " Buffalo, " 635 "	18s.	to 20s.	"
" " Cleveland, " 770 "	26s.	to 27s. 6d.	"
" " Detroit, " 910 "	29s.	to 30s. 6d.	"
" "Chicago or Milwaukie, 1220 "	32s.	to 34s.	"

When there is much opposition in the steamboat lines on the river and lakes, the fares are occasionally considerably lower, but at no time do they exceed the above, for *deck passage*. It is to be noted that one shilling sterling passes for 1s. 3d. currency, and the fares above, are given in sterling, as emigrants will understand them better in that way.

#### RAIL ROADS IN CANADA.

The lines of rail road at present either in operation or in course of construction in Canada, are as follows, viz:

THE CHAMPLAIN AND ST. LAWRENCE RAIL ROAD, (capital £150,000,) commencing opposite the city of Montreal on the south shore of the River and thence to St. Johns, 19 miles, and from St. Johns to Rouse's Point, 23 miles, connecting with the Ogdensburg or Northern, the Vermont and Canada, the Vermont Central, and the

Rutland and Burlington rail roads, and Lake Champlain line of steamers. Hon. John Molson, president; W. A. Merry, secretary, Montreal.

THE MONTREAL AND LACHINE RAIL ROAD, (capital £125,000,) between the city of Montreal and the village of Lachine,  $8\frac{1}{2}$  miles, where it will connect with the Lake St. Louis and Province Line Rail Road. W. F. Coffin, president; John Farrow, superintendent, Montreal.

THE ST. LAWRENCE AND ATLANTIC RAIL ROAD, (capital £600,000,) to connect with the Atlantic and St. Lawrence Rail Road from Portland, at the Province line, this road is now in course of construction, and the cars run daily as far as Melbourne, a distance of 71 miles, when finished, which will probably be in the course of 1852, it will form a direct line of communication of 293 miles in length, between the city of Montreal and the city of Portland. A. T. Galt, president; A. C. Webster, secretary, Montreal.

THE LAKE ST. LOUIS AND PROVINCE LINE RAIL ROAD, (capital £150,000,) connecting with the Lachine rail road at Caughnawaga, and thence to the Province line at Mooser's, a distance of  $29\frac{1}{2}$  miles, connecting with the Ogdensburg or Northern line. W. F. Coffin, president; John Farrow, secretary, Montreal. This road is now in course of construction and will probably be completed in 1852.

THE BYTOWN AND PRESCOTT RAIL ROAD, (capital £150,000,) to connect Bytown with the River St. Lawrence opposite Ogdensburg, a distance of 53 miles, this road is now under contract, and will probably be completed in 1853. John McKinnon, president; Robert Bell, secretary, Bytown.

THE QUEBEC AND RICHMOND RAIL ROAD, (capital £650,000,) to connect the city of Quebec with the St. Lawrence and Atlantic Rail Road at Richmond, a distance of 100 miles, a company has been formed to carry out this road, and the work is expected to be prosecuted shortly. E. P. Mackie, secretary, Quebec.

THE TORONTO, SIMCOE AND LAKE HURON RAIL ROAD, (capital £500,000,) to connect the city of Toronto with Lakes Simcoe and Huron. A company has been formed to carry out this road, upon which operations have just been commenced. F. C. Capreol, secretary, Toronto.

THE GREAT WESTERN RAIL ROAD, (capital £1,500,000,) from Hamilton to Windsor, a distance of about 228 miles, connecting with the American Lines at Detroit, this road which is now in course of construction will pass through the finest portion of the Province, and when completed must necessarily be the great highway for the travel, and for the transport of a large portion of the produce of the North Western States of the American Union, as well as of Western Canada. R. W. Harris, president; J. T. Gilkison, secretary, Hamilton.

THE RAWDON AND INDUSTRY RAIL ROAD, (capital £12,000,) this road, which owes its origin to the public spirit of the late Hon. Barthelemi Joliette, connects the villages, above named. It has been constructed upon very economical principles, and is of much advantage to the country in its vicinity. J. H. Dorwin, president, Montreal.

In addition to the above, it is probable that the construction of the Grand Trunk Line of Rail Road, to connect Halifax with Canada, will be commenced at no distant day, as the Provincial Parliament at its last session, passed resolutions favorable to the project.

By 12th Vict., chap. 28, it is provided that every Railway Company whose Act of Incorporation contains a provision subjecting it to any general law respecting Railways, shall be bound at all times, on being thereunto lawfully required, to render every service to Government in the conveyance of troops, mails, naval or military stores and ammunition, police and others, travelling on Her Majesty's service; and to place at the disposal of Government, when called upon, any Electric Telegraph in their possession.

By clause 2, no By-laws of any Railway Company imposing or altering tolls, or binding any party other than the Company's members, or servants, shall have any force or effect until sanctioned by the Governor in Council.

By 12th Vict. chap. 29, the Government is authorised to guarantee upon certain conditions, the payment of interest on loans to be raised by any Railway Company, chartered by Act of the Provincial Parliament, of not less than seventy-five miles in extent. But

no such guarantee may be afforded until half the entire line of road shall have been completed, nor without due security for the re-payment of the loan.

By clause 5, it is provided that if Her Majesty's Government, either directly, or through some private Company, shall undertake the construction of the proposed Railway between Halifax and Quebec, it shall be lawful for the Provincial Government to pay yearly, in proportion as the work advances, a sum not exceeding £20,000 sterling, in aid thereof, and to procure and place at the disposal of the Imperial Government all land within the Province required for the purposes of the Railway, as well as all ungranted lands lying on the line of Railway to the extent of ten miles on each side thereof.

13th and 14th Vic., ch. 72, extends the provisions of the recited Act of the 12 Vic. ch. 84, to all Rail or Tram Roads, whether constructed of iron, wood, or stone which may be undertaken by Joint Stock Companies under said Act, provided that any such Road, to be made under the provisions of this Act, shall be subject to such supervision and control by the Governor and Council of the Province, as may be directed by any general Railroad Act.

By clause 6, the time allowed for completing any Road, under the Act aforesaid, shall, in the case of any Rail or Tram Road, be extended to the period of five years.

# “Dolce Campana Attachment”

## PIANOFORTES,

MANUFACTURED by the Subscribers, are unsurpassed in their elasticity of touch, brilliancy and body of tone. It is these peculiar qualities that give them their popularity as a SUPERIOR INSTRUMENT, throughout the United States, and in England.

The following letter will be sufficient to satisfy the most scrupulous of their superior worth, coming from the Queen's Pianist, and Jenny Lind's Instructor.

LONDON, JUNE, 1850.

*Manchester Square.*

MESSRS. BOARDMAN & GRAY,—Regarding my opinion of your Piano Fortes, and the Dolce Campana Attachment Pedal, I beg, first, to express my entire satisfaction as to the excellence of the instrument, for elegance, quality of touch and fineness of tone, the whole being a very good specimen of American taste and workmanship. The effect produced by your ingenious addition to the Piano Forte (Dolce Campana) is pleasing and novel, and valuable, principally for accompanying Vocal Music. I have no doubt of its becoming very popular among professors and amateurs. I trust its introduction into this country may meet your expectations, and I have much pleasure in adding my opinion to the many you have already received.

JULES BENEDICT.

SIR,—George Smart, Organist and Composer to Her Majesty's Chapel Royal, says, in a letter to us, dated June, 1850, London, Portland Square: “It affords me much pleasure to give my opinion in favour of the “Dolce Campana Attachment,” the tone and touch are good, and the instrument is elegant, I consider that it is well adapted for the accompaniment of vocal music, and can be applied to any Pianoforte. I hope this ingenious invention will meet the encouragement it deserves.”

Charles Halle, the eminent German Composer and Pianist, writes us from Liverpool, August, 1850,

GENTLEMEN,—I have examined with care the Piano at your rooms in London, and it is with great pleasure that I say I have been perfectly satisfied, as much with the tone, which is fine and very powerful, as with the touch, which is equal and easy, I was particularly struck with the effect produced by the “Dolce Campana Attachment” of your invention, you have rendered a great service to Pianists in offering them another source of varying the tones of their instruments, and of producing entirely new effects, &c., &c.

# ENGLISH REPORTS IN LAW AND EQUITY.

## PROPOSALS

# BY LITTLE & BROWN,

LAW BOOKSELLERS, 112 WASHINGTON STREET, BOSTON,

FOR PUBLISHING BY SUBSCRIPTION

## A NEW SERIES OF LAW AND EQUITY REPORTS.

THE want of some system by which the decisions and judicial opinions of the several Courts of Law and Equity in England can be more promptly and cheaply furnished to the legal profession in this country, has long been seriously felt and acknowledged. To meet a similar want in England, the "LAW JOURNAL REPORTS," and "THE JURIST," which, together, report decisions in *all the Courts of Law and Equity*, within a few weeks after their delivery, were commenced a number of years since, and have met with the universal approbation of the legal profession. Their high cost, however, has hitherto prevented their general circulation in this country, and their merits are as yet but little known among us.

The subscribers propose to republish these REPORTS IN FULL, as fast as they appear in England and can be received here. They will contain reports of cases decided in the HOUSE OF LORDS, the PRIVY COUNCIL, the several COURTS OF EQUITY, the COURT OF QUEEN'S BENCH, the COURT OF COMMON PLEAS, the COURT OF EXCHEQUER and EXCHEQUER CHAMBER, the ECCLESIASTICAL and ADMIRALTY COURTS, the COURT OF BANKRUPTCY, including also, the ELECTION CASES, the CROWN CASES RESERVED, and the RAILWAY and CANAL CASES.

These reports will be published in monthly numbers or parts, commencing with the decisions of Michaelmas (November) Term, 1850, and will be carefully edited by a member of the bar, with notes and references to analogous American decisions. The first number will appear in a few days.

Each number will consist of over THREE HUNDRED pages, closely printed octavo, on the best paper, and in clear, fair type, and will contain a table of cases, and a full table of contents, thus forming a complete volume by itself, as well as a part of an entire series. Every alternate or second number will be paged consecutively from the number immediately preceding, and will contain a table of cases, and of contents to *both*, and thus form, every two months, a complete volume, ready for binding, of *over six hundred pages*. In each volume the cases of the several Courts will be found arranged together, and in point of style and typographical execution, this series will be fully equal to the best reports of England or this country.

It is designed to make this a PERMANENT PUBLICATION, and thus establish a *new series* of ENGLISH LAW AND EQUITY REPORTS, which shall, in all respects, be far in advance of any other reprint of English Reports in this country, and which shall furnish to the American lawyer the decisions of Westminster Hall, nearly *two years before they could otherwise be obtained*, and long before the publication of the contemporaneous decisions of most of our own tribunals.

The profession may be assured that this series will be the *most complete* of any reports now published. A careful examination of the Jurist and Law Journal, for a series of years, discloses the fact that many important cases are here reported which are not found in the contemporaneous reports of Meeson & Welsby, Manning & Scott, Adolphus & Ellis, and other reporters; and the Law Journal alone, during the first seven years of its existence, published over 1000 cases not then elsewhere reported. *This publication will include all the future decisions of the Law and Equity Courts hereafter contained in the several series of English Reports.*

The price of this publication, forming six volumes octavo, will be \$10 a year payable in advance, or the six volumes, handsomely and uniformly bound in law sheep, \$12.

Each monthly part will be sold separately, if desired, at \$1.

As to the character of the reports of the "Law Journal," and "The Jurist," but little need be said. They were established to furnish the profession with the actual decision of causes, and the reasoning of the Court thereupon, with a clear, concise, and sufficient abstract of the facts, without the prolix arguments of counsel usually found in the late English Reports. They are not encumbered with *Nisi Prius* decisions, but contain only those cases argued and decided *in banc*, and upon mature consideration. In England, these Reports are regarded as of high authority, and are cited with approbation and respect in the English Courts and by their most eminent elementary writers. They are regularly digested and inserted in the Annual Digests of Harrison, and others, and have received the express sanction of distinguished English Judges. They are cited with confidence, and as authority, in the judicial opinions of Judge Story, and other eminent American Judges, and in the writings of Greenleaf, Kent, Angell, Chitty, and others; and for *accuracy, clearness, and brevity*, are believed to be equal to any English Reports now published. The publishers feel confident that the low price of this series, combined with the promptness and regularity with which the latest decisions will here be offered to the profession, cannot fail to recommend it as a useful and desirable publication.

Orders addressed to the subscribers, No. 112 Washington Street, Boston, Mass., or to any of their Agents.  
BOSTON, MARCH, 1851.

LITTLE & BROWN.

**Proposals by LITTLE & BROWN, 112 Washington Street, Boston,**  
 FOR PUBLISHING, BY SUBSCRIPTION, THE  
**LIFE AND WORKS OF JOHN ADAMS,**  
 SECOND PRESIDENT OF THE UNITED STATES.  
 EDITED BY HIS GRANDSON, CHARLES FRANCIS ADAMS.

The public will be glad to learn that the publication of the works of JOHN ADAMS, so long delayed, has now commenced. It is intended to embrace, in the proposed collection, the works of Mr. ADAMS on Government already published, but now out of print, and a selection from a most voluminous mass of Manuscripts which have never seen the light.

The Collection is to be made and edited by the Hon. CHARLES FRANCIS ADAMS, the depository of all the Manuscripts as well of John Adams, as of his father, the late JOHN QUINCY ADAMS; and is intended as the first of two great publications, elucidating the History of the Rise and Progress of these United States from the year 1761, in which the revolutionary struggle first began, down to the year 1848, when the younger ADAMS died.

The materials for the first of the two works are much more ample than has generally been supposed. JOHN ADAMS, during nearly all his life, scrupulously preserved his papers, and among them are found many of a curious and singularly interesting character. Probably the most remarkable, at least in the eyes of the world, will prove to be a DIARY, commenced by him as early as 1755, and carried on for thirty years, including the largest portion of his public career. This DIARY will be found to contain a great amount of valuable matter connected with the early movements of the Revolution in Massachusetts, and to throw a good deal of new light upon the proceedings of the great Congresses of 1774, 1775, and 1776, at Philadelphia, in which the writer was a conspicuous actor. There are also notes of the debates during a portion of that period, which, in the dearth of all knowledge of them, will be highly valuable to posterity.

It is well known that an intention was long entertained by the younger Mr. ADAMS to write a memoir of his father. This, although not entirely executed, was commenced. A most interesting fragment remains in a perfect state, and will be prefixed to the present publication. The unexecuted portion will be carried on by the Editor, aided by the discovery of an autobiographical fragment of JOHN ADAMS himself, which will be woven into the body of his work.

The great difficulty will be, in the abundance of the materials to be gathered out of a correspondence carried on for a half century, as well as out of unpublished treatises of various kinds, rather to bring them all within reasonable limits for purchasers, than to come short of what will interest the students of the national history.

It is proposed to issue the works in ten octavo volumes. These will include the Essay on the CANON and FEUDAL LAW, the DEFENCE OF THE AMERICAN CONSTITUTIONS, the various editions of which have been long since exhausted, and the DISCOURSES ON DAVILA, to all of which illustrations, drawn from the unpublished writings of Mr. ADAMS, or supplied by the Editor from other sources, will be added.

Such selections will be made from the DIARY, and from the private papers as may be considered most likely to promote a better acquaintance with the time in which Mr. ADAMS lived and acted than is yet possessed, even after all the valuable contributions which have already been furnished from other quarters. On the whole, the publishers confidently believe that there is no work relating to the revolutionary history of the United States, and indeed of the times in which Mr. ADAMS lived that surpasses, in historical and political value, the volumes now offered to the patronage of the American people. And they strongly hope that they shall find themselves so well sustained in this great enterprise, as to be encouraged to go on and perfect the other and later part of it, the Life and Works of the no less distinguished son, JOHN QUINCY ADAMS.

The following list embraces a portion of the contents of these works.

1. WORKS UPON GOVERNMENT.
2. POLITICAL PAPERS, INCLUDING CONTROVERSIAL PUBLICATIONS OF THE REVOLUTION.
3. MESSAGES AND PUBLIC PAPERS.
4. DIARY.
5. PRIVATE LETTERS ON PUBLIC SUBJECTS, 1774, TO 1801.
6. PRIVATE LETTERS FROM 1756, TO 1826.
7. LIFE, BY JOHN QUINCY ADAMS, CONTINUED BY THE EDITOR.
8. ORIGINAL UNPUBLISHED LETTERS OF FRANKLIN, JEFFERSON, JAY, IZARD, THE LEES, LAURENS, GERRY, DANA, AND OTHER EMINENT PATRIOTS OF THE REVOLUTION.

Vols. II, III and IV are now issued and ready for delivery.

The work is beautifully printed, in the octavo form, each volume containing from 500 to 600 pages, and put up in cloth, at the price of \$2.25 a volume, the whole work will be finished in a few months.

A limited number of copies are struck off on large paper, and put up in the same style of binding, price \$3.00 a volume.

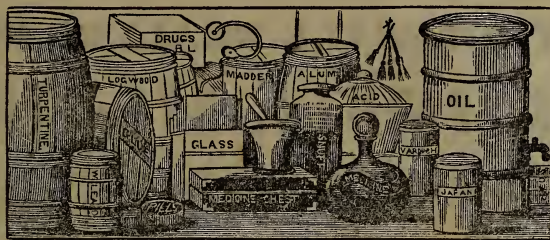

Subscriptions and orders are respectfully solicited by the Proprietors.

# CONSUMPTION CAN BE CURED!!!

## SCHENCK'S PULMONIC SYRUP.

### A SPECIFIC REMEDY

FOR

### Consumption, Dyspepsia, Scrofula, LIVER COMPLAINT, PALPITATION OF THE HEART, COUGHS, COLDS, &C.

It has been before the public upwards of twelve years, during which time scarcely a single individual has used it without finding relief. It has succeeded in cases where all other remedies have failed, and the proprietor conscientiously believes, from its great success, that it is the best remedy for these diseases ever discovered. The elements of which this Syrup is composed, are simple herbs and roots, the medicinal properties of which purify the blood, strengthen the system, and give a healthy tone to the lungs and digestive organs. Its operation upon the system is mild, yet efficacious; it loosens the phlegm, which creates so much difficulty when tight; it relieves the cough, it assists nature to expel from the system all diseased matter, by expectoration, which, if retained, produces Consumption; it ripens matter in an abscess or tubercle, and then causes its expulsion from the system, at the same time soothing the irritated parts, healing the laceration, making a healthy part; it regulates the bowels without the aid of purgative medicines; it allays the most troublesome cough without injuring the system, as most medicines do, as it does not contain any mercury, calomel, opium, or any deleterious drug whatever. In short, it may emphatically be called the Consumptive's Friend; for wherever it has been used, it invariably produces happier results than any other remedy, soothing the pillow of the sick, and, by its healing properties, restores, in a majority of cases, the sufferer to health.

Nearly every patient who has used it, by a perseverance in its use, has felt its healing influence; and by continuing its use a perfect cure has been effected. The reason for this is obvious, as the Pulmonic Syrup is compounded upon the principles of sound medical philosophy—has stood the test of years of trial, and many members of the medical professions who were prejudiced against the use of this great remedy, have had those prejudices removed by witnessing its triumphant success, and are now using it in their practice. The Proprietor of this medicine was himself, many years ago, reduced so low as to be given up by his physicians and friends, in the last stage of Consumption, and his case appeared to be beyond the reach of any remedy. He then used the Pulmonic Syrup, which he now offers to the public, and it was the means of curing him.

TO CONSUMPTIVES.—Without solicitation or hint on the subject, the *Editor of the Courier*, cheerfully confirms Dr. Schenck's statement, made in his advertisement in this paper, headed "Schenck's Pulmonic Syrup," from actual knowledge of the facts, as regards his own case.

Every Family should have a Box of this Salve on hand, in case of accidents.

# THE RUSSIA SALVE.

Introduced in 1816.

## THE BEST REMEDY

FOR

Cuts, Burns, Scalds, Old Sores, Chilblains,  
FLESH WOUNDS,

Chapped Hands, Corns, Felons, Piles,

FROST BITTEN PARTS OF THE BODY,

AND

## SORES OF EVERY KIND.

This Salve has been used in the United States for the past thirty-six years—and has given universal satisfaction. Families who have once used it, would on no account be without it,—it draws the pain—allays the inflammation—and heals only when all the soreness and irritation are removed. There is nothing deleterious or hurtful in its compound. If you try it once, you will never be without it, but will recommend it to your friends.

### CANADIAN TESTIMONY.

I, Edward Young, cabinetmaker, 58 Carver street, feeling it a pleasant duty due myself and the public, do make known, thus publicly, a fact of such importance as materially affects every body in this Commonwealth. In the year 1842, I was injured by a plank falling on my leg; it caused the leg to swell and become inflamed, and finally caused the most awful ulcers and sores, that defied the skill and treatment of the best physicians of Quebec, Canada, the place of my residence at that time. Dr. Douglas, one of the most popular physicians and surgeons in Quebec, assured me that there was little, if any hope of my recovery.

I came to Boston; my limbs were now both affected, painful and terrible to look at. I applied to Dr. Phelps; he tried his skill, but without any apparent success, and I was then induced to call upon and consult Dr. Warren, who gave me some relief, but after some time I grew quite disheartened, my limbs were almost a mass of sores, from my knees down to my ankles, scarcely allowing me to sleep or rest, day or night. I had read a good deal about Russia Salve, but having used so many advertised Plasters and Salves, and tried so many things, that I felt little interest in the Russia Salve, although repeatedly advised by my friends to try it, I was too skeptical to do so. At length a man brought me a box of Russia Salve, which I applied to my limbs as the directions implied. I really began to feel a sensation of peculiar pleasantness about my raging sores. I went down to Redding & Co.'s, 8 State Street, and bought two boxes. I have used in all nearly four boxes of this great Salve; my limbs are now, with the exception of the scars, as perfect as ever they were. The ulcers have healed up, the sores have nearly all disappeared, and I hesitate not to say that by the time I have used the fourth box of the Russia Salve I shall be cured. I consider my case one of the severest tests the Salve could possibly encounter, and its entire triumph in curing me, entitles Redding & Co. to much praise, in producing and offering such a great blessing to the public as the Russia Salve.

I would further add, that having the Salve in my house, and a member of my family suffering very much from Piles, I recommended the use of the Russia Salve, and which cured them with great ease, and in a very brief space of time. Any use, my dear sirs, you may wish to make of these facts, you are at liberty to use as your judgment may dictate.

Yours, very respectfully,

EDWARD YOUNG.

# DR. CONINE'S

## SYRUP OF GINSENG AND MALVA.

This medicine will probably depend more upon its own virtue and actual merit than any other ever before offered to the public.

A short story must therefore suffice. The recipe is from Dr. Conine, a gentleman who travelled for many years in China and the Islands of that vicinity, where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach and

### AFFECTIONS OF THE LUNGS,

But what will attract attention here is its astonishing

### DISSOLVENT POWER,

by which it at once removes ALL PHLEGM or extraneous matter from the throat, stomach or lungs. It is therefore

### ANTI-EXPECTORANT,

and from attestations of trial here, it is now offered as Nature's kindest remedy for the removal of

### CONSUMPTION AND WHOOPING COUGH,

and ALL COUGHS, by precipitating the phlegm instead of creating irritation by expectoration.

It is aromatic and increases the general warmth, possessing the exhilarating qualities of the TEA PLANT, which is one great cause of its universal popularity in all INDIA beyond the Ganges, while as an APPETISER it has probably no equal in the whole vegetable kingdom.

Of those who may desire further information, the Agents respectfully request a call, or they will by letter send the facts and references in their possession.

They beg further to state that of the two roots of which this compound is composed, the former (the Ginseng) is indigenous to our own country as well as China; in the latter the supply being limited, while in the former its use has been unaccountably neglected, and almost every pound of our own production up to this time has been shipped to CHINA, where in PEKIN it has frequently been worth its weight in gold.

Here therefore IT IS A NOVELTY. There it may be traced in THE ANNALS OF ANTIQUITY.

In conclusion, the subscribers state, that upon trial it will prove a more pleasant, safe and effectual TONIC than the sarsaparilla or other boasted tonic remedy, and even NUTRITIOUS, as well as exceedingly palatable. It will continue to be prepared in the best manner,—no expense being spared,—and in quart bottles.

# CONSUMPTION CAN BE CURED.

SIR JAMES CLARK, Physician to Queen Victoria, and one of the most learned and skilful men of the age, in his Treatise on Consumption, says, "*That Pulmonary Consumption admits of a cure, is no longer a matter of doubt*; it has been clearly demonstrated by the researches of Laennec and other modern pathologists." Dr. Carswell, who investigated such matters probably as thoroughly as any man, says, "Pathological anatomy has, perhaps, never afforded more conclusive evidence in proof of the curability of a disease than it has in that of tubercular phthisis," (pulmonary consumption.) Dr. Clark again says, "It not unfrequently happens that young persons are attacked with symptoms of phthisis, which, under proper treatment, cease, and years elapse before there is any renewal of the disease. Were advantage taken of the intervening period to correct the tubercular diathesis, (hereditary tendency), the cure might prove perfect. I have known recoveries from two such attacks, the third proving fatal; the interval between the first and last attack was twelve years." Laennec also says, "I think it more than probable that hardly any person is carried off by a first attack of phthisis."

These opinions are fully sustained by multitudes of the most renowned men in the medical profession; among whom may be named Bennet, Hall, Williams, Wood, Rioffrey, &c., &c.

All these, with a host of others, have borne their conclusive testimony in favor of the curability of this dreadful disease.

## FIFTY THOUSAND

human beings die every year in Great Britain, and an equal proportion in our own country. The very thought is startling, one in every four or five persons falls a prey to this disease.

The mere fact that such a disease is ever curable, attested by such unimpeachable authority, should inspire hope, and reanimate failing courage in the heart of every sufferer from this disease.

The remedy which we now offer, WISTAR'S BALSAM OF WILD CHERRY, for the cure of this disease, not only emanates from a regular Physician, but has also been well tested in all the complaints for which it is recommended.

### THE PHYSICIANS' USE

## WISTAR'S BALSAM OF WILD CHERRY.

So, says the Morning Chronicle, Quebec, July 22, 1848. It is but an act of common justice to the discoverer of this invaluable remedy, to make known the popularity it has acquired in Quebec, and its neighborhood. On inquiry of the Agent, we learn that his sales of this medicine are almost daily on the increase, and that its virtues in the cure of Coughs and Colds are known and appreciated, as extensively recommended by the most eminent medical practitioners of Quebec, in their own families as well as amongst their patients.

The Montreal Transcript, speaking of Wistar's Balsam of Wild Cherry, June 19, 1849, says:—

We believe it to be generally recognized as a useful medicine by medical men, and we can state with perfect truth and sincerity, that in one case with which we are more particularly acquainted—that of an old gentleman, at least eighty years of age, residing a few miles from this city, and who is troubled at times with an asthmatical complaint, the most decided relief is obtained whenever he makes use of the balsam,—this, at the advanced period of life which he has arrived at, may be considered an unspeakable proof of its virtues.

Alderman Perkins of Boston, gives us the following:—

Boston, February 3, 1851.

Dr. S. W. Fowle—Dear Sir:—Having lately had occasion to try your celebrated remedy for Coughs and Colds, Wistar's Balsam of Wild Cherry, which I did with marked success, I cannot, in justice to you, withhold my testimony in its favor. For several days I had been suffering from the effects of a severe cold, accompanied by a very sore throat and sick head-ache, which completely incapacitated me for business, I had taken but a small portion of a single bottle of this Balsam, when I experienced immediate relief. My cough was broken up at once, and my lungs entirely relieved from the pressure which had become so painful. I attribute this relief entirely to the good effects of your Wild Cherry, as I took no other medicine whatever. I shall cordially recommend it to all my friends.

Respectfully yours,

SAM'L S. PERKINS.

The following is from the Editor of the Baltimore Patriot:—

BALTIMORE, December 18, 1849.

Dr. Seth W. Fowle—Dear Sir:—I feel it to be due to you to say that a young lady, a member of my family, had been suffering for several years under a Bronchial affection, and the disease had made such progress, notwithstanding the best medical aid had been consulted, that great fears were entertained that the disease with her as with many others, might speedily terminate in death. I was induced, through the persuasion of a friend, to try Dr. Wistar's Balsam of Wild Cherry, and after she had taken three bottles, she felt entirely relieved of the attack.

Very respectfully yours,

J. F. M'JILTON, Editor.

The only genuine is always signed I. Butts on the wrapper.

# SUPERIOR TOILET SOAPS.

**Cythrean Cream of Soap, Panariston Shaving Cream, Panariston Shaving Soap, in solid rolls, Panariston soap for medical uses, and Shaving Powder,**

**MANUFACTURED BY ISAAC BABBITT,**

For the Proprietors, **ANDREW KITCHEN & Co., No 257 Washington Street, BOSTON, Mass.** To whom all orders should be sent and will be promptly answered. Retail by the Druggists generally in the United States and Canada.

These articles are intended to take the place of all other Soaps as a purifier of the skin, and by effecting that object perfectly and without injury to the most delicate, it will supersede all other cosmetics.

Being applied directly to the skin, before touching the water, it seizes the impurities with a firmer grasp, and is subject to less waste than the ordinary hard soaps which are first dissolved in water.

The following testimonials to its properties, among a multitude of the same kind, are deemed sufficient to induce a trial, after which nothing more will be necessary to insure its adoption.

It is hardly necessary to say that the writer of the following is one of the most distinguished practical chemists in this country.

NEW YORK, Oct. 2, 1850.

MR. ISAAC BABBITT:—Dear Sir—I have been using your “Panariston Shaving Soap,” for several weeks and do not hesitate to say that it is the best soap for shaving that I have ever used. It is so perfectly free from excess of alkali and other irritating substances, that I find that it acts in a soothing and healing manner to the skin made sore by the use of imperfectly prepared soap.

The ladies of my family who are using your “Cytherean Cream Soap,” are delighted with it, and emphatically declare that it leaves the skin in a more soft and pleasant condition than they have ever been able to produce by any other toilet soap. Very respectfully yours,

JAMES R. CHILTON.

Dr. A. A. Hayes of Boston, Chemist and State Assayer, says:—

MR. ISAAC BABBITT:—Dear Sir—Your new chemical compound, the “Cytherean Cream of Soap,” has been used several weeks in my family with increasing satisfaction. I have never met with any soap compound, which in cleansing the most delicate skin would, like this, leave it perfectly moist, soft and healthy. Unlike cosmetics of any kind, it insures comfort, and beauty of surface, by removing matter from, rather than adding it to, the skin.

Letter from Dr. Ticknor, U. S. Navy.

U. S. Naval Hospital, Chelsea, September 28, 1850.

DEAR SIR—I have the satisfaction to inform you that we have made such trials of the different kinds of soap which you gave me the other day as will enable me to express an opinion respecting it; and which is, that for the hospital, for which it is designed, and in my family, for washing and shaving, it is superior to any that we have ever used. It possesses all the good qualities which you ascribe to it, and I cannot doubt that when its superior excellence becomes known, you will find a ready sale for all you can make. Respectfully yours,

MR. ISAAC BABBITT, Boston.

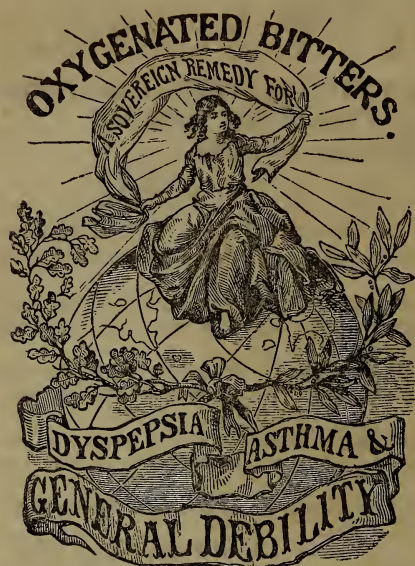

B. TICKNOR, Surgeon U. S. Navy.

Dr. Walter Channing, Boston, says:—DEAR SIR:—I have tried Mr. Babbitt's Soap, and can truly and with great pleasure say, that I have no memory of so good an article. Nay, I can and do say that it is the very best soap I have ever used. *It is a Soap.* This is its whole recommendation. It is a most economical soap, and let those who use it remember this. It is excellent for both washing and shaving.

Horace Greeley of New York Tribune, says:—

This is a Boston invention, designed to supersede all ordinary soap used for the toilet. We have tried it, and pronounce it perfect. No other soap is worthy of being mentioned in the same day. Mr. Babbitt has certainly applied his profound knowledge of chemistry and inventive genius to some purpose in making it. It is indeed a new thing.

Dr. S. S. Fitch, New York, says:—I have faithfully tried your soaps and they are excellent. Your Cream of Soap is soft, demulcent and fully strong enough, and powerfully cleansing. The Shaving Powder is also a most valuable soap with a full body and exceedingly well tempered. The tenderest face can receive it. It leaves the face soft, clean, and refreshed, and presents the softest surface to the razor, and I feel certain that such soaps will have admirers in all those who are so fortunate as to use them.

### CONTAINING NO ALCOHOL,

The best and strongest certified medicine in the world for the cure of Dyspepsia in all its forms—such as headache, heartburn, habitual costiveness, acidity of the stomach, loss of appetite, asthma, piles, incipient consumption, debility arising from protracted fevers, fever and ague, exposure to heat or cold, old age, and diseases arising from imperfect digestion, or a deranged condition of the stomach. It is also an excellent remedy, and not surpassed by any medicine in use for females suffering from uterine or nervous derangement.

They are also the best tonic known for the prevention and cure of **FEVER AND AGUE.**

Among the numerous and highly respectable certificates, we refer to the following:—Prof. A. A. HAYES, M.D., State assayer; FITZHENRY HOMER, Esq., Boston; JAS. C. DUNN, Esq., City treasurer, Boston; Hon. MYRON LAWRENCE, ex-president, Massachusetts Senate; Hon. L. H. ARNOLD, formerly governor, Rhode Island, now member of Congress; Hon. ### Dadd's Horse and Cattle Medicine.

*Physic Powders, Alterative Powders, Heave Powders, Urine Powders, Worm Powders, Distemper Powders, Liquid Blister, Healing Balsam, Horse Liniment, Mange Ointment, Hoof Ointment, Hair Ointment.*

THE proprietors of the above medicines, recommend the public to give them a trial. They have performed some of the most extraordinary cures on record; many who have used them are ready to testify to their curative powers. Among the testimonials are those of Hon. Henry Clay, Hon. Daniel Webster, and others of the farming community.

Dr. Dadd has spent several years in the study of veterinary practice in London and Edinburgh, and availed himself of the researches of Liebig, and other celebrated men who have contributed so much towards a judicious treatment of animals.

These medicines have proved highly efficacious in curing all diseases of HORSES, COWS, and SHEEP.

For particulars, see pamphlets, which furnish a list of the articles, and describe the different diseases for which they are adapted, and contain much valuable information for farmers and owners of Horses and Cattle. These pamphlets can be had gratis by application to our agents.

# AMERICAN HOUSE, HANOVER STREET, BOSTON.

THE Undersigned having entirely REBUILT and ENLARGED the above extensive establishment, containing in all about three hundred and fifty rooms, would respectfully give notice that it is now ready for the reception and accommodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any apartment perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing rooms, will be found to be of the most beautiful and tasteful manufacture. The Dining rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself that the American House shall be truly the Travellers' Home.

Sold Wholesale and Retail, at Sloan's Medicine Depot, Buffalo, N.Y.

And all orders for the same from the States of New York, Pennsylvania, Eastern Ohio, and the Canadas, must be addressed to Wm. P. SLOAN, Buffalo, N. Y.

Prepared and Sold, at the Grand Depot, 40 Lake street, Chicago, Illinois, by W. B. SLOAN.

### SLOAN'S FAMILY OINTMENT

Is composed of Vegetable extracts, and possesses power unequalled in the annals of Medicine, for the cure of inflammatory Diseases. It is MILD, SAFE, THOROUGH, and the greatest external remedy ever used. PAIN CANNOT EXIST where this Great Remedy is faithfully applied.

### SLOAN'S HORSE OINTMENT.

For Purity, Mildness, Safety, Certainty, and Thoroughness, excels, and is now superseding all other Ointments and Liniments, for the cure of Horses, Cattle, and other domestic animals.

### THE PROOF.

#### HEALING VIRTUES.

It is a *fact*, authenticated here, as well as all over the State, and indeed the whole Western States, that Sloan's Medicines have obtained a wide spread celebrity and reputation, to which they are justly entitled by their "*healing virtues*," and powers. We are not among those who are prone to endorse every patent humbug that comes along, and in this instance have delayed our endorsement until we have been able to make assurance doubly sure, not only by testing them personally ourselves, but from the testimony of a numerous portion of the community living around us.—*Illinois Globe*, April 13, 1850.

#### POPULAR OPINION.

If popular opinion is any criterion of the worth of an article, we invite the incredulous to read at least a few of the many voluntary certificates that appear in our columns respecting the great variety of remarkable cures effected by the use of "Sloan's Celebrated Ointment and Condition Powders."

These remedies no longer remain among those of doubtful utility, they have passed from the tide of experiment, and now stand higher in reputation and are becoming more extensively used than all other articles of the kind.—*Mich. City News*.

#### TESTIMONIAL.

To all to whom this may come, or in any way concern:—This is to certify that I applied W. B. Sloan's Salve to my horse's mouth when it was very bad with Black Tongue or Cancer—so bad he could not eat; and in two hours he eat as well as ever. And I further certify that it is a good medicine for human flesh, cuts and bruises.

# COLD SPRING WATER CURE.

THIS Institution is situated about two miles North of the City of Buffalo in a rural spot surrounded with pleasant walks, which, for romance and beauty, are not surpassed in the United States. The location is high, dry, airy, and healthy, and the entire arrangements of the Cure are of the most modern style, and such as to give to patients a cheerful and comfortable home, while receiving all of the benefits which can be derived from water cure treatment. In connection with the cure is a gymnasium where about one hundred different kinds of exercises are systematically performed, which greatly facilitates a cure. From 1 to 3 lectures per week will be delivered by Prof. Davis, on physical education. Hygiene, &c., embracing the best instruction for promoting health and longevity, and avoiding disease. A line of Omnibusses run from the cure to the steamboat landings in Buffalo, every 10 or 15 minutes.

*Medical Department.*—This Institution is under the general supervision of S. M. Davis, M. D., professor of the principles and practice of medicine in Central Medical College. Mary M. Taylor, a lady of high medical attainments, who has pursued a regular course of medical studies, has charge of the *female department*.

**TERMS.**—For board medical attendance, &c., from 5 to 14 dollars per week, varying according to room and attention required.

Patients will be required to furnish themselves with three sheets, (one linen,) one woollen blanket, 2 comfortables, and 4 crash towels.

All communications for medical advice, should be addressed (post-paid) to

S. M. DAVIS, M. D.

239, Main Street,  
BUFFALO, N. Y.

Communications relating to the business department, should be addressed to the Steward of Cold Spring Water Cure, Box 441, Buffalo, N. Y.

# LAY BY YOUR TRUSSES.

## Hernia or Rupture can be Cured!

The subscriber would respectfully announce to the public that he is possessed of the right to use and vend Dr. O. Hurlbut's Oppilative Patented Remedy for the CURE OF HERNIA OR RUPTURE!

It is a safe and easy remedy, requiring no surgical operation, but consists simply of plasters, peculiarly constructed, accompanied with an oil, very penetrating. The ingredients of which it is composed are perfectly harmless, but powerful in effecting a cure. In most cases the time required is fifteen or twenty days.

Persons troubled with the above complaint are respectfully requested to call at my DAGUERREAN ROOMS, ON MAIN STREET, CORNER OF EAGLE, where plasters can be had, and such information and instruction given as may be necessary in their use.

The above remedy has been in successful operation in the city of New York for four years.

No cure, no pay!

P. S.—Numerous certificates on hand, from persons that have been cured—some of fifteen and thirty-five years standing.

GEORGE P. REED & Co., AGENTS, No. 17 TREMONT ROW, BOSTON, MASSACHUSETT

**View of the Five Octave Melodeon, Piano Style.**

The Subscribers take this method of calling the attention of the public to a *New Musical Instrument* as yet but little known to the musical world, viz; Prince & Co.'s improved Melodeon—an engraving of which is herewith given.

It is now about three years since these instruments were first offered for sale, and during that time the increased demand for them has been unparalleled. One hundred and fifty workmen are constantly employed in the manufacture, and finishing from 75 to 80 instruments per week, and as yet they have not been able to supply the demands promptly.

For the benefit of those residing at a distance, and consequently unable to inspect the Melodeon before purchasing, we will endeavour to give a short description of the instrument.

The cases are made of Rose Wood, and are as handsomely finished as any Piano Forte. The Key Board is precisely the same as the Piano or Organ, and the tone, (which is very beautiful,) closely resembles that of the Flute Stop of the Organ—the notes speak the instant the keys are touched, and will admit of the performance of as rapid passages as the Piano. The Pedal on the left is intended for a *swell*, and with which the most beautiful effects can be produced. The Pedal directly under the instrument supplies the wind, and works so easily that a child can manage it without any exertion. The Bellows, (which is something entirely new, and for which a Patent was granted in December, 1846,) is a reversed or exhaustion Bellows, and it is this in a measure which produces the peculiar tone. The instrument can be *immediately made portable*, without detaching any part, the Bellows receding into the body of the instrument, and the legs folding under and springing to their places, leaves the whole in a compact form. Each instrument has a packing case secured by lock and key.

The volume of tone is equal to that of a small organ, and by means of the swell, may be increased or diminished at the pleasure of the performer; it is sufficiently loud for small churches, and is well calculated for a parlor instrument. Hundreds have examined them, and all have been loud in their praise; but the best evidence of their merit is the rapid sale. But it is a new instrument—a new invention, and is yet but little known in the musical world, and it is for this reason that we call to it

the attention of all lovers of Music, believing that there are thousands who would lose no time in securing one, were they aware of the existence of such an instrument, and the *low price at which it could be obtained.*

The following letter from LOWELL MASON, Boston, to G. P. Reed, we are permitted to use:—  
Mr. Geo. P. Reed, No. 17 Tremont Row, Boston, Mass.

DEAR SIR,—At your request I have examined one of the Melodeons manufactured by Messrs. Geo. Prince & Co., of Buffalo. I think the Instrument in all respects equal, and in some respects superior, to any others of similar kind which I have seen, and in particular with respect to *quality of tone and promptness of touch*, or action of the reeds, by which quick passages may be performed with a certain and distinct articulation of tones. An instrument of this kind is the best substitute for an organ in Church Music with which I am acquainted.

Boston, Mass., Sept. 26, 1849.

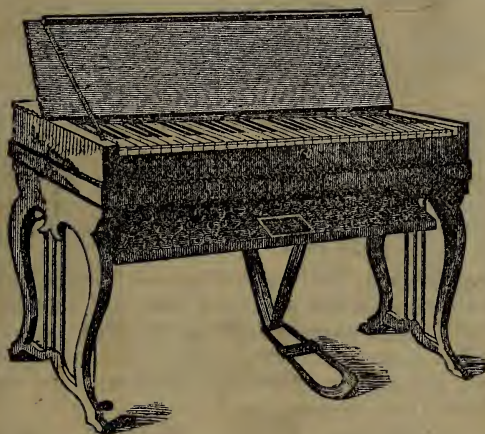

LOWELL MASON.

## View of the Five Octave Melodeon, Portable.

### PRICES.

Four Octave Melodeon, extending from C. to C., \$45; Four Octave Melodeon, extending from C. to C., extra finish, \$55; Four and a half Octave Melodeon, extending from C. to F., extra finish, \$65; Five Octave Melodeon, extending from F. to F., \$75; large Five Octave Melodeon, piano style, \$100.

Just published, *Prince's Complete Instructor for the Improved Melodeon*, to which is added favorite

Airs, Voluntaries, and Chants, arranged expressly for this Instrument. Price 75 cents

In consequence of the great success which has attended the introduction of Prince & Co's Melodeons, numerous imitators have sprung up in different parts of the country—offering instruments under the same name, and in outward appearance resembling them. We would therefore caution the public to be on their guard, and examine those made by Prince

& Co. before purchasing. Many improvements applied are *exclusively our own*, and being the original manufacturers, our experience has enabled us to produce Instruments which a discerning public have unanimously pronounced superior to any thing of the kind hitherto manufactured. Many of the most eminent Musicians of the cities of New York and Boston have voluntarily given testimonials as to the high character of our Instruments, which can be seen on application.

*All orders from a distance will be promptly attended to, and a written guaranty of their durability will be given if required.*

## Piano Forte and Organ Manufactory.

THE subscribers respectfully call attention to the instruments now manufactured by them. An experience of over twenty years, aided by the best workmen, and with the use of the most popular modern improvements, has enabled us to turn out Piano Fortes, which have elicited the warmest commendation from competent judges, both at home and abroad.

No pains have been spared to produce Instruments, which, for beauty of finish, excellence of touch, and sweetness and volume of tone, will challenge competition; and the best evidence that we have succeeded in this endeavor, is to be found in the fact, that at the late fair of the American Institute, held in the City of New York, in October, 1850, our Piano Fortes, although in competition with those of the most celebrated makers both in Boston and New York, received the

### First premium for the best Piano Fortes.

And the unqualified approval of most of the best professors of the Piano Forte then in the city, among whom may be named W. VINCENT, WALLACE M. STRAKOSCH, JAMES L. HEWITT, HERRMAN S. SARONI, and others.

of any required number of Stops are now perfected, and they are prepared to receive orders for Organs of every description. Mr. BENSON, the senior partner of the firm, having for many years been extensively engaged in the manufacture of Church Organs, we do not hesitate to engage to build instruments, which, for beauty of finish, purity of tone, and ease of action, shall be equal, if not superior to any manufactured in the United States. Also, constantly on hand, Parlor Organs of all sizes and finish, in Rosewood and other cases.

# PAPER MILLS AND PAPER WAREHOUSE.

THE Undersigned having recently put into operation a large Mill in the vicinity of this City for the manufacture of Printing Paper exclusively, finding it quite inadequate to supply the demand, which is now large and constantly increasing, have made a further addition to their facilities, by purchasing the well known and extensive Paper Mill at Niagara Falls, lately owned by A. H. Porter, Esq. To this Mill they intend adding largely, increasing its present capacity, and introducing all the MODERN IMPROVEMENTS which are now in use in the large manufactories in the East, and which enable them to give their papers such superior finish and style generally. They will manufacture all the fine grades of

**FOOLSCAP, LETTER, FOLIO POST, DEMY, MEDIUM, &c.**

They will also add to their facilities for making NEWS and BOOK PRINTING PAPERS, the latter equal in point of color and surface to the *finest qualities* found in the Eastern market, and at

**Lower Prices than have ever been sold in this City.**

Their facilities for supplying Wrappers and other Coarse Papers are also good. These come direct from several large mills fitted up expressly for making this kind of Paper, and their whole stocks are consigned to this house if required.

# THE OAK ORCHARD ACID MINERAL SPRINGS.

## ANALYSIS.

The waters of these medicinal Springs have been analyzed by Professors B. SILLIMAN, Jr., and JOHN P. NORTON, of Yale College, Professor E. EMMONS, of Albany, and Dr. J. R. CHILTON, of New York.

*Analysis by Prof's SILLIMAN and NORTON, of Yale College,—From Spring No. 1.*

GRAINS IN ONE GALLON:			
Sulphuric Acid, . . . . .	134.732	Sulphate of Potash, . . . . .	5.519
Proto-Sulphate of Iron, . . . . .	28.623	Sulphate of Soda, . . . . .	6.343
Sulphate of Alumina, . . . . .	21.690	Chloride of Sodium, . . . . .	2.434
Sulphate of Lime, . . . . .	74.891	Silica, . . . . .	4.592
Sulphate of Magnesia, . . . . .	35.596	Grains, . . . . .	314.420

Prof. EMMONS remarks, that "the peculiar character of these waters renders them useful in many chronic diseases, especially those of the digestive organs, and those of weakness and debility."

There are hundreds of well attested cures of a number of diseases—(especially those affecting the stomach, bowels, and urinary organs,)—diarrhœas, dyspepsia, piles, dysentery, chronic mucous catarrh, diabetes and cystitis, pharyngitis, general debility and loss of appetite, humid asthma, chronic laryngitis, leucorrhœa and gleet, scaldhead and salt rheum, habitual constipation of the bowels, night sweats, the various forms of disease arising from an abuse of mercury; and, in short, the numerous cures it has performed in those various affections resulting from a scrofulous diathesis manifest an extraordinary activity not found in the usual remedies.

For diseases of the skin of every kind, even confirmed leprosy, the water is regarded as a certain remedy, if used a sufficient length of time; no failure to cure diseases of this nature has ever been known.

## A CASE OF BLEEDING PILES.

ST. LOUIS, January 10, 1850.

MR. FISHER,

DEAR SIR,—The dozen bottles of Oak Orchard Acid Spring water which you gave me last spring, entirely cured me of the distressing complaint (the bleeding piles,) of which I had been afflicted for ten years; and at times to such a degree that I could not leave my bed for weeks; and if I ever meet you again, I assure you I will try to reciprocate the favor. If I go east again next spring, I shall visit the Springs and again partake of their cooling beverage.—Yours, very truly,

(Signed,) JAMES SPENCER.

## A Remarkable Cure of Pulmonary Disease.

DEAR SIR,—It is a duty I owe to the public to state the following facts in relation to the nevirts of the Acid Springs of Alabama, Genesee county, N. Y. In the month of February, 1845, I was attacked with inflammation of the mucous membrane of the lungs: I was sick for a long time; at last I partially recovered, and lingering along in this situation, I received no help at all that was lasting. I employed all the physicians far and near, but could get no help from any of them. I then tried Brant's Balsam, but this could not save me. I had spells of bleeding, and spit a pint of blood in three minutes, and bled after this rate five times in twenty-four hours. At last I was given up by all—I gave up myself and thought I must die—my friends were often called to see me die. I have been so several times that I could not see, hear, nor stir. At last I was persuaded to try the Acid Water, and this was the "Sovereign Balm;" it restored me to health immediately.

It is two years since I commenced taking the Water; I have taken no other medicine, and have not seen an unwell day since.

(Signed,)

J. C. BEECHER.

SOUTH BYRON, July 26, 1848.

COPY of a letter from the Editor of the Orleans American.

MR. GEO. A. FISHER,

ALBION, July 2, 1850.

DEAR SIR,—I wish to say a few words in regard to the Oak Orchard Acid Spring Water. For a number of years past I have suffered more or less constantly with the Dispepsia, and within a few years, much from the Erysipelas. In the fall and winter of 1848, I had a very severe time with the latter, and was confined to the house for six weeks. My condition was an aggravated one indeed. I was literally *skinned alive* three times, and this state of things was only arrested by the application of a hot bath, the water strongly impregnated with Alum and Salts. After trying various remedies and taking down large quantities of Sarsaparilla, with but poor success, I tested the Acid Spring Water. In its use I recovered my health, and I think that I was never less Dispeptic than I have been since, although continuing in sedentary habits. For Debility, Weakness of Stomach, Dispepsia, and Scrofulous Complaints, I think the Acid Spring Water has no equal.—Yours, &c.,

J. H. DENIO.

IMPORTANT TO THE

# Farrier, Farmer, and Stage Proprietor!

## A GRAND CHEMICAL DISCOVERY!

### GEO. W. MERCHANT'S CELEBRATED GARGLING OIL.

Interesting to Farmers.

MR. MERCHANT—Dear Sir—About three years ago I had occasion to make use of your Gargling Oil, and have since made a great use of it, and will therefore give you some account of my success, as it may be of value to farmers and others, who have not yet become acquainted with its virtues. I have used it in almost every kind of external complaints on horses, in many of which, other medicines entirely failed to help, with decided

success. In one case of a very bad spavined Shoulder, by strict attention and prompt application of the Oil, I cured in three days so that the horse was fit to use. I can also produce many who have used the Gargling Oil without a failure, who will verify the truth of the above statement. I wish that you would make an agent for the sale of it, at or near this place, which I think would be much to your advantage.

PETER HILMAN.

Brant, Erie Co., Aug. 15, 184

UNPARALLELED IN THE HISTORY OF MEDICINE AS THE MOST REMARKABLE  
EXTERNAL APPLICATION EVER DISCOVERED FOR

## HORSES, CATTLE & HUMAN FLESH.

Ignorance of facts and philosophy, start at the assertion that any one remedy can possess within itself the virtue of curing many diseases. Experience of more than fourteen years has nevertheless established the fact that Merchant's Celebrated Gargling Oil, or Universal Family Embrocation, will cure most cases, and relieve all such as

FLESH WOUNDS, GALLS OF ALL KINDS, SPRAINS, BRUISES, CRACKED HEELS, RING BONE, POLL EVIL, WINDGALLS, CALLOUS, SPAVINS, SWEENEY, FISTULA, SITFAST, EXTERNAL POISONS, CHILBLAINS, CORNS, WHITLOWS, CAKED BREASTS, CRAMPS, BOILS, BITES OF ANIMALS, SPRINGHALT, SAND CRACKS, LAMENESS, STRAINS, FOUNDERED FEET, WEAKNESS OF THE JOINTS, CONTRACTIONS OF MUSCLES, SCRATCHES OR GREASE, HORN DISTEMPER, MANGE, FROST BITES, RHEUMATISM, BURNS AND SCALDS, CHAPPED HANDS, SWELLINGS, PAINFUL, NERVOUS AFFECTIONS,

## AND MANY OTHER DISEASES INCIDENT TO MAN AND BEAST.

It is allowed by farriers, and all who have used it, to be decidedly the best application for horses and other domestic animals, of any now in use; and may be used as an internal remedy, in some cases with surprising results. And it is here worthy of special remark, that besides its great and extraordinary powers in the cure of diseases of the horse, in which its virtue first attracted the attention of the farrier and farmer, and the wonder of the public generally, it has been successfully employed in a great variety, of the maladies which affect the human race. It has proved by the wonderful cures it has performed on the lower animals, that it is endowed with curative properties not found in other horse oils, which has established its claims to general confidence.

TO OWNERS OF HORSES.—This may certify that I have had for many years the care of from one hundred to two hundred horses and have made use of Merchant's Gargling Oil for two years past, and can safely say, that for all the diseases that horses are liable to, I never saw its equal. I use about one bottle per month, and recommend it to the public, as the best medicine for horses now in use.

E. D. MINOR.

G. W. MERCHANT, Lockport.—DEAR SIR,—I purchased a bottle of your Gargling Oil of your Agent, A. L. Baker, at Middleport, and as yet have used only about half of it. I think it has given me more relief, in a case of severe Rheumatism of long standing, than anything I have ever used before.

Yours truly,

ENOS MATHER.

A Physician's Testimony.—The Eminent Dr. PARKER writes as follows:

DEAR SIR,—I have prescribed your Gargling Oil in various cases of Practical Surgery, as a liniment, with marked success, and would commend it to Physicians generally for external use in all confusions, tumors, sprains, white swellings, and in all rheumatic affections, where external means are necessary. As a discutient it is harmless where the febrile symptoms have been reduced by general treatment. In such cases it is the most efficient remedy within the circle of means now in use.

**Selpho's First Premium Anglesey Leg.**

Introduced into the country and made solely by W. SELPHO, 24 Spring st., N. Y. This description of Artificial Leg derives its name from the celebrated Marquis of Anglesey, who lost his leg in the battle of Waterloo, by whom it has been adopted and worn ever since its first invention by the late ingenious Mr. Potts of London, to whom the present artist was 11 years a pupil and assistant.

"I have seen the artificial leg of Mr. Selpho; its construction appears excellent and well calculated to answer all the objects desired. But the best of all is the proof of those who wear them; this is positive and undeniable. Some of my friends whom I have mutilated inform me they are superior to all others.

**BILLIARDS WITHOUT A MASTER,**

BY MICHAEL PHELAN.

The above named work, the first American publication of the kind, is illustrated by fifty fine copper-plate diagrams, each containing from one to twenty-four shots, from which sufficient knowledge may be acquired to enable the player to accomplish any possible stroke on the billiard table, all of which are fully explained on the pages opposite to the respective plates. The work contains an invaluable and original invention, in the shape of a chart or scale of strengths necessary to be used in making each shot, of an arrangement so simple that it can be comprehended by all, and will be found of the highest importance to the novice and amateur, as every shot there delineated has been graduated by it, and the quantity of strength necessary to be used is given in the description annexed to each plate. It contains, also, a full and complete set of rules for the government of the game of billiards, and the various games of pool; hints to players; advice to amateurs; with a variety of explanations interesting to all connected with billiards or billiard playing. To keepers of billiard rooms the "Rules" are worth more than the price of the work, and the hints and the advice are invaluable. Accompanying the work is a treatise on the origin, rise and progress of the game. It is also embellished by a fine steel plate frontispiece, showing a billiard table and players in position. The above work is the most complete one of the kind ever produced in any part of the world, and the only one where the theoretical science and philosophy of the game has ever been explained.

# CLIREHUGH'S PATENT TRICOPHEROUS, OR MEDICATED COMPOUND.

**T**HIS agreeable and valuable preparation is now established, beyond all cavil or dispute, as the only article ever known which will, in every instance, and at all ages, when properly applied, prevent and cure **BALDNESS** and **GREY HAIR**, restore it to its original color, entirely remove scurf and dandruff, and cure all eruptions or roughness of the skin.

Thousands have testified to the entire recovery of their hair, after having lost it for years, and at various periods of life. No matter how thin or weak, coarse, dry, or harsh the hair may be, it will be restored to a soft, glossy, healthy, and luxurious crop, if the **TRICOPHEROUS** be regularly applied. Those who have been threatened with premature grey hair, have, by the **TRICOPHEROUS**, not only stopped their progress, but had their hair changed to its original color.

It so acts through the skin upon the oil glands, and vessels containing the colouring matter, or pigment, as to cause hair to change gradually and imperceptibly from Grey to its original color, whether brown or black. Red, sandy, or flaxen colored hair, is made to look dark and glossy, while harsh, dry, or crisp hair is rendered soft, moist, and pliable. Whiskers are made to grow thick and strong, while they are preserved in colour from the effects of the many strong alkaline soaps.

Thus the **TRICOPHEROUS** is calculated to supersede the use of all those disagreeable and uncertain Hair Dyes, disagreeable and troublesome in their use, uncertain and unnatural in their effects; while, by the aid of the **TRICOPHEROUS**, a few weeks will suffice for the hair to undergo a change, so gradual as ultimately to give to that hair which may have become prematurely grey—not a dyed appearance—but the natural colour, gloss, and softness of youth.

The composition of the **TRICOPHEROUS** differs entirely and completely from every other article for a similar purpose, as it is not intended merely to anoint the hair, but is applicable to the skin, and to act, through it, on the nerves, blood-vessels, and absorbents, connected with the root or bulb of the hair. The certain preservation of the hair and its colour is thus guaranteed to all who will adhere to the directions or advice of Mr. Clirehugh. The prescribed use of the **TRICOPHEROUS** has been found a certain cure for all cutaneous diseases of the scalp, whether in children or adults. Scurff, Dandruff, and other excrescence thrown off by the skin, even in its most healthy state, disappear under the influence of the **TRICOPHEROUS**, leaving the skin clear, healthy, and active.

The **TRICOPHEROUS**, from its irritant and blistering principle, has proved, to ladies, an invaluable restorative, where the hair has fallen off from the seams or divisions, being overstrained, or too tightly tied: where the hair has become weak from confinement, or from any other cause peculiar to the female constitution; and its occasional use will preserve the hair to the latest period in life.

Like every article of high character and sterling worth, **CLIREHUGH'S TRICOPHEROUS** has to pay the penalty of its popularity. It has been counterfeited by an unprincipled empyric, who without talent or brains, has fraudulently stolen, and given to his vile trash the name *Tricopherus*, by which it is foisted on the public through advertisements containing the most barefaced falsehoods, but the many complaints, and applications for advice, made daily to Mr. C., show that the loss of the hair and destruction of the skin has never failed to follow the use of so deleterious a compound. **CLIREHUGH'S TRICOPHEROUS** is the *only original and genuine* in the world, and being secured by letters patent of the U. S., the public are thus protected, as no one dare use the same ingredients. Bear this in mind. The genuine is warranted to perform all that is promised.

The counterfeit is only half the size of the genuine, and is sold for 25 cents. The public are cautioned and reminded in all cases to ask for Clirehugh's *Tricopherous*, which is sold at \$1, and observe his written signature on the outside wrapper.

If Ladies and Gentlemen intend to use the *Tricopherous*, let them use the genuine; do not let them be tempted to use a counterfeit because it is cheap, even although it bears the name *Tricopherous*, as that name is used only to entrap the unsuspecting.

Read **CLIREHUGH'S "TREATISE ON THE HAIR,"** accompanying each bottle.

Principal Office, 179 Broadway, N.Y., where advice is given by Mr. **CLIREHUGH** on all diseases connected with the growth of the Hair.

Sold wholesale and retail by Francis Richardson, Toronto; Hugh Miller, Toronto; Lyman, Brothers & Co., Toronto; Alfred Savage, Montreal; Allan Turner, Brockville; T. Bieckle & Son, Hamilton; Frederick Wise, Quebec; and by all hair dressers, druggists, and perfumers in the United States, England, France, East and West Indies, &c.

# DYSPEPSIA.

## VEGETABLE DYSPEPSIA BITTERS

THE MOST POPULAR FAMILY MEDICINE OF THE AGE! USED BY PHYSICIANS OF HIGH STANDING.

These BITTERS remove all morbid secretions, purify the blood, give great tone and vigor to the digestive organs, fortify the system against all future disease, can be taken with safety, at no time debilitating the patient—being grateful to the most delicate stomach, and remarkable for their cheering, invigorating, strengthening, and restorative properties, and an invaluable and sure remedy for the DYSPEPSIA IN ITS WORST FORMS.

Also, liver complaints, jaundice, heartburn, costiveness, faintness, disorders of the skin, liver and kidneys, loss of appetite, low spirits, nervous headache, giddiness, palpitation of the heart, sinking and fullness of weight at the stomach, and all other diseases caused by an impure state of the blood, liver, &c., which tend to debilitate and weaken the system.

FEMALES who suffer from a morbid unnatural condition, will find this Medicine of INESTIMABLE VALUE. In ALL CASES of GENERAL DEBILITY, this Medicine *ACTS LIKE A CHARM!*

THOUSANDS have tested its efficacy, and thousands more are now under treatment; and not one solitary case of failure has yet been reported.

[From the Evening Post.] SUCCESS UNPARALLELED!—The stomach prepares the elements of all the fluids which feed and sustain life. To that organ all internal remedies are primarily addressed; and never has a medicine been introduced, within our time, that seemed so admirably adapted to restore the digestive powers, when debilitated, to their full vigor, as this wonderful combination of the tonic alterative, and corrective principles. In dyspepsia, bilious complaints, general debility, nervous affections, and all the long catalogue of diseases which form the melancholy addenda of indigestion, we consider HUTCHINGS' VEGETABLE DYSPEPSIA BITTERS the only sure, safe and radical remedy.

[From N. Y. Star.] A VALUABLE MEDICINE, we should take HUTCHINGS' BITTERS to be, if we may judge from the numerous certificates of most worthy and reliable people, which we see published almost daily. That cruel disease, Dyspepsia, which so often defies the usual medicines, is said to yield readily to the powerful curative qualities so artfully compounded in this great antagonist of disease.

[From N. Y. Tribune.] HUTCHINGS' DYSPEPSIA BITTERS.—From want of exercise and many, other causes, a very large number of females are afflicted with Dyspepsia and other complaints proceeding from indigestion; and there is no preparation in the whole range of pharmacy so peculiarly applied to their delicate organization as HUTCHINGS' VEGETABLE DYSPEPSIA BITTERS. In cases of hysteria, heartburn, sick headache, liver complaint, general weakness, lassitude, nervousness, and in all the distressing results of indigestion and other functional derangements, they will find its cordial, bracing and alterative properties the remedy, and, as we believe, the only safe and assured remedy for their ailments.

[From Sunday Times.] DYSPEPSIA.—Thousands endure the terrible affliction of Dyspepsia, without an attempt to alleviate the cause of their sufferings. To all such we would advise the use of HUTCHINGS' VEGETABLE DYSPEPSIA BITTERS. Numerous families of our acquaintance lay in their quarterly stock of these Bitters as they do other indispensables, and they are right. A small wine glass full taken the first thing in the morning, will be found most efficacious.

Circulars, containing the Certificates of Remarkable Cures, and the high estimation in which this Medicine is held by the Public Press, can be had of the Agents, free. Price, 50 Cents per Bottle.

Principle Office, 122 Fulton street, N. Y., up stairs. In Canada—W. Lyman & Co., Montreal; T. Musson, Quebec; Charles Palmer, Kingston.

### READ THE FOLLOWING LETTERS!

EMANUEL LYON, Esq.,

NEW YORK HOSPITAL, June 1, 1850.

Dear Sir:—It affords me great pleasure in stating that I have extensively used your Powder for the destruction of Insects of all kinds, (especially Bed Bugs and Roaches) and unhesitatingly pronounce it the best and only article so effectual in its operations. I have also experimented with your Pills, and find them equal in all respects with your statements. Hoping that you may prosper, I remain your friend,

JOHN L. ROOME, Supt. N. Y. Hospital.

NEW YORK, Irving House, April 21, 1849.

I have used Emanuel Lyon's Magnetic Powder and Pills for the destruction of Insects and Vermin, and have found the most happy result, and cheerfully recommend them to those who may be troubled with these insects, as a sure method of destroying them.

## PROF. A. C. BARRY'S TRICOPHEROUS, OR MEDICATED COMPOUND,

**I**NFALLIBLE for renewing, invigorating, and beautifying the HAIR, removing the scurf, dandruff and all affections of the scalp, and curing eruptions on the skin, diseases of the glands, muscles and integuments, and relieving stings, cuts, bruises, sprains, &c. With this preparation "there is no such word as fail." The first journals in America, medical men of the highest eminence, prominent citizens of all professions, and ladies who have used it for years in their dressing rooms and nurseries, admit with one accord, that for imparting vigor, gloss, luxuriance and curl to the hair, eradicating scurf and dandruff, healing wounds, curing contusions, sprains, stings, &c., and relieving diseases of the skin, the glands and muscles, it has no equal, among the multitude of compounds advertised in the public prints, or used in private practice. In cheapness as well as efficacy, Barry's Tricopherous is unrivalled. The immense cash sales of the article have enabled the Inventor to supply it at retail, at 25 cents per bottle, which is from 50 to 100 per cent. less than the price of any other preparation for the hair now in use. The scientific treatise on the hair and the skin, (embracing valuable directions for the culture and preservation of Nature's choicest ornament,) in which each bottle is enclosed, is alone worth the money.

The affinity between the membranes which constitute the skin, and the hair which draws its sustenance from this triple envelope is very close. All diseases of the hair originate in the skin of the head. If the pores of the scalp are clogged, or if the blood and other fluids do not circulate freely through the small vessels which feed the root with moisture, and impart life to the fibres, the result is scurf, dandruff, shedding of the hair, grayness, dryness and hardness of the ligaments, and entire baldness, as the case may be. Stimulate the skin to healthful action with the Tricopherous, and the torpid vessels, recovering their activity, will annihilate the disease. In all affections of the skin, and of the substrata of muscles and integuments, the process and the affect are the same.—It is upon the skin, the muscular fibre, and the glands, that the Tricopherous has its specific action, and in all affections and injury of these organs, it is a sovereign remedy.

Sold, in large bottles, price 25 cents, at the principal office, 137 Broadway, New York: and by the principal Merchants and Druggists throughout the United States and Canada.

### REMARKS.

THE GREAT INCREASE IN THE SALE OF

## READY-MADE CLOTHING

Is attributable as much to the vast improvement in the style and quality of the garments, as to the fact that the convenience of finding every garment fashionably made to one's hand, SAVES TIME AND MONEY.

It is, we believe, admitted that we have done more to effect this revolution in the Clothing Trade than any other house in this city; and with a stock of immense variety, little short of

**\$200,000 IN VALUE,**

to select from—our wholesale rooms containing Clothing suited to every market in the United States and South America—with our many appliances for keeping up and constantly improving the style and quality of our work—by procuring for our city department every desirable style of goods and fashion of garments so soon as introduced in this or foreign markets—

And with the determination to spare no pains to give entire satisfaction, both to our city and country trade, as well on the score of ECONOMY as of TASTE, we cannot fail to continue to do the largest clothing trade, at wholesale and retail, in the world.

# BLAKE'S Patent Fire Proof Paint.

84 PEARL STREET, NEW YORK.

This extraordinary substance is found in a stratum of rock in Sharon, near Akron, Ohio. When taken from the mine it has all the appearance of the finest Indigo, and is no harder than cold tallow, but exposure a few days to the atmosphere turns it into a hard SLATE or STONE. It is reduced to fine powder, mixed with Linseed Oil to the consistency of thick paint, and applied with a brush, and after exposure for a few months to the atmosphere, this coating becomes a perfect slate, protecting whatever covered by the action of the WEATHER and from FIRE. It has been found upon analyzation by DR. CHILTON, of this city, to consist of larger proportions of Silica, Alumina Prot. Oxide of Iron and Magnesia, with lesser of Lime and Carbon; the transition, therefore, according to the opinion of Drs. Chilton and Locke, from the liquid paint to the hard slate is accounted for according to nature's own laws; as the oil absorbs and evaporates by the action of the atmosphere, the powerful adhesive attraction incident to the Prot. Oxide of Iron, binds and attracts not only the particles together, but also to the substance covered, so that the longer on, the more powerful the attraction, consequently the harder the slate, and the closer it will adhere to the substance applied. It is being used extensively for covering roofs of either shingles, matched boards, tin, zinc, sheet iron or thick paper. There is nothing equal to it for Steamboat or Car decks, and for all kinds of Iron, as it forms a coating nearly as hard as the iron itself, and never cleaves off, it is a perfect DESIDERATUM for old leaky Tin roofs as it enters into all the cracks and forms a complete stone coating over the whole roof.

It is used upon brick walls both as a paint and cement. It forms a perfect stone coating, through which not a particle of moisture can pass. In fact, it can be used upon anything you wish to protect from fire or weather. The Government granted me, on the 28th March, 1848, a patent for the discovery of its application as a fire and weather proof composition, or artificial slate.

The Fair of the American Institute, held last Fall, awarded me a medal, and the Fair of the State of New York, a Diploma. The Examining Committee of the American Institute, of whom Dr. J. R. Chilton was Chairman, and had some three years previous analyzed it, states in the report, that it was an article superior to anything that had been presented as a weather and fire-proof covering.

## CERTIFICATES.

This may certify that we have been acquainted with "Blakes Patent Fire Proof Paint" for some years and are well assured that it is really what its name indicates—FIRE-PROOF, we consider it a better fire-proof than Tin or Zinc, and will insure buildings well covered with it at a much lower premium than those covered with the above mentioned metals.

## BLAKE'S PATENT FIRE PROOF PAINT.

### LOOK OUT FOR FRAUD!

For the past few months there have been scores of individuals engaged in digging, grinding, and sending to a distance all kinds of STUFF, much of it no better than dirt from the street, or clay from any bank, calling it all good Fire and Weather Proof Paint, like mine they say, but of a different colour. Now it is impossible for them to know anything of the *weather-proof* qualities of this counterfeit article, as it has not yet been two years since they first commenced digging it and according to the opinion of Dr. Chilton, of New-York, and Dr. Lock, of Cincinnati, this *stuff* is entirely worthless as an outside coating, as it has neither the *Red* nor the *Black Oxide* of Iron in it, consequently there can be no cohesive attraction; therefore, as the action of the atmosphere destroys the oil with which it is applied, it will wash or rub off like chalk or whiting. I have the certificates at my office of more than twenty inhabitants of Sharon, Ohio, where the paint is made, who state that they have used this counterfeit stuff and it has proved entirely worthless, and there has been such an entire failure of the different kinds of stuff got up and sold as fire-proof paint, except Blake's that his only is considered worth using. Others are endeavoring to sell an article, similar to mine in violation of my patent, contending that my patent is invalid and that they have a right to manufacture and sell the substance.

*Extract from the New-York Sun.*

*Blake's Patent Fire-proof Paint*—We last season procured a sufficiency of this most singular and valuable article to cover the roof of the *Sun Building*, and now find that it proves all that was said of it, as there is not a check or crack to be seen, but is now one continued sheet of stone over the whole roof, and the tread upon it does not seem to effect it although it is upon tin, the roof leaked badly before it was applied, but has been perfectly tight since. We understand that Mr. BLAKE spent his whole time, for more than three years, in experimenting with the pigment, at length he discovered that by reducing it to a powder and mixing it with oil, he had a compound that could be as easily applied as ordinary paint, and in a few months would become a perfect *slate* or coat of mail, protecting whatever covered from the action of the weather and fire. He now might have well exclaimed "*Eureka*" *ie* "I have found it," for it was a *desideratum* that had for centuries been sought in vain. This paint has proved so popular that hundreds, we understand, are getting up all kinds of worthless stuff, and selling it as Fire-Proof Paint. It therefore will be well to be particular and see that every package has Mr. BLAKE'S stamp upon it, as it is a patented article, therefore if they get that that makes the genuine artificial slate of others they expose themselves to a prosecution for an infringement of his patent, but if a worthless counterfeit article, of course they lose their money. The genuine article can be found at the *gen Depot*, No. 84 Pearl Street, by WM. BLAKE, the patentee.

The public therefore will be particular and see that every package has my brand upon it, for if they get the powder from others that will make the genuine Artificial Slate, they make themselves liable to me for an infringement of my patent, and if they get the spurious article of course lose the money they pay for it.

# ANTI-PYRIC PAINT.

## Fire, Weather, and Water Proof.

MANUFACTURED BY

**THE NEW YORK ANTI-PYRIC PAINT COMPANY,**

For the Roofs of Dwellings, Warehouses, Bridges, Fences, and all Articles that require Protection from FIRE, WEATHER, OR WATER.

TO THE PUBLIC.

The Anti-Pyric Paint Co. are prepared to fill orders for their incomparable Anti-Pyric Paint. They wish it to be distinctly understood, that their Paint is distinct from any of the various *ground rocks, slates, clay, or mud*, which are puffed and sold in the market as Fire Proof Paint. The Paint offered by this Company is manufactured from proper materials only, scientifically prepared and combined, and as such it is offered to the public, with the full assurance that in its protective properties against Fire and the Elements, it is superior to any article ever used in the form of Paint; and that, after all the earths and native Paints, (so called) have had their day and failed, the Anti-Pyric Paint alone will maintain its reputation as a perfect protection against the weather, falling sparks or cinders, and a not too immoderate heat from the direct action of Fire. It has no *deleterious articles in it*, will not crack, peel off, or wash away, but hardens by time and becomes permanent and imperishable by age! Thousands have used it for the last three years without a single failure.

Constantly on hand and for Sale at the Depot of the Company, by GEO. G. SHEPPARD,  
THEIR SOLE AGENT, 187 WATER STREET, NEW YORK,

## THE UTILITY OF PHRENOLOGY.

To Know Ourselves is a matter of the greatest importance, and there is no other means by which we can acquire this knowledge so well as by the aid of Phrenology. It teaches us for what occupation in life we are by nature best qualified, and in what pursuit we may be most successful.

To Parents and Teachers it will unfold the true capacities and dispositions of their children and pupils, and thus enable them the more successfully to govern and instruct them. It will enable the Physician to understand the causes of insanity, and greatly assist him in restoring his patient.

It will aid Manufacturers in selecting Apprentices best adapted to particular occupations, Merchants in selecting confidential Clerks, Shipmasters in selecting Crews, and, what is of still more importance, will guide us correctly in selecting Congenial Companions for Life, and enable us to adapt ourselves to each other, when a difference in disposition exists.

It is a powerful Lever of Self-Improvement, in Moral and Intellectual advancement.

## THE PHRENOLOGICAL CABINET, 131 NASSAU STREET, N. Y.

Contains Busto and Casts from the heads of the most distinguished men that ever lived; also Skulls, both human and animal, from all quarters of the globe—including Egyptian Mummies, Pirates, Robbers, Murderers, and Thieves; also numerous Paintings and Drawings of Celebrated Individuals, living and dead; and is always free to visitors, by whom it is continually thronged.

## PROFESSIONAL EXAMINATIONS,

With written and verbal descriptions of character, given when desired, including directions as to the most suitable occupations, the selection of partners in business, congenial companions for life, etc., etc., all of which will be found highly useful and interesting.

## THE PHRENOLOGICAL JOURNAL.

To reform and perfect ourselves and our race is the most exalted of all works. To do this we must understand the Human Constitution. This Phrenology and Physiology embrace, and hence fully expound all the laws of our being, conditions of happiness, and causes of misery.

Each number will contain either the analysis and location of some phrenological faculty, illustrated by an engraving or an article on their combinations; and also the organization and character of some distinguished personage, accompanied by a likeness, together with frequent articles on Physiology and the Temperaments. This Journal is published by

# THE GREAT VEGETABLE MAGIC PAIN DESTROYER,

*For the Cure of Ague in the Face and Breast, Abrasions of the Skin, Blisters of every kind, Burns, Broken Breast, Chilblains, Corns, Erysipelas, Felons, Fever Sores, Frosted Hands and Feet, Inflammations, Scrofulous Sores, Sore Eyes, Salt Rheum, Scurvy, Ulcers, Piles, &c.*

ROCHESTER, November 29, 1850.

MR. JAMES JOHNSTON.—Sir, It is with great pleasure that I write the following testimonial, for your benefit and for the benefit of those who may be similarly afflicted. I have been for the last five years severely afflicted from a fever sore on my angle, and have tried all the medicines that I could hear of or obtain, and I spared no pains in getting medical attendance and advice of the first class physicians, but all in vain. Through the persuasion of a person who had used your Vegetable Magic Pain Destroyer, I obtained a box, and it helped me very much, and the second box made a perfect cure, so there is nothing left of the disease, but the scars it left on my angle. I have known a number of cases that it has cured; one was a severe burn, and another an inflammation of the eyes, both cured with astonishing rapidity. I would recommend the Great Vegetable Magic Pain Destroyer to all who are similarly afflicted.

Yours truly, GEORGE WILLIAMSON.

## DR. LOCOCK'S PULMONIC WAFERS,

*For the Cure of Colds, Coughs, Asthma, Bronchitis, Pulmonary Consumption, and all Affections of the Breath and Lungs.*

Manufactured by E. TAYLOR, ROCHESTER, N. Y., the only true and genuine proprietor and manufacturer on the Continent of America, by assignment of right from JAMES JOHNSTON.

### IMPORTANT TO CLERGYMEN.

From the Rev. Owen Thomas, Holyhead.

DEAR SIR,—Dr. Locock's Wafers do a great deal of good to my voice. I got a bad cold from a damp bed about thirty-five years ago, and my voice was very bad ever since, giving great pain to me when preaching or singing, and I am very fond of singing.

I used many different medicines, and some of them did good for a little time; but Dr. Locock's is the best of all—it clears my voice and stops the coughing instantly. I have never found anything yet to compare with it.

I have been 33 years a Wesleyan minister, and all the Wesleyan Methodists in the principality know me; twenty years of which I have lived at Holyhead; and I am known personally to all the first men of that body, many of whom have admired the effects of the Wafers in clearing the voice and stopping the cough—they never got such medicine before. My wife, ever since Christmas, has been very well after taking two boxes, and I am a witness of their power to stop a frightful fit of coughing in an instant.

I, as a Wesleyan preacher, call upon all preachers and singers of every denomination, to take these Wafers for improving the voice and curing coughs.

You may publish my testimonial for the excellent Wafers if you wish.

I am, yours truly,

OWEN THOMAS.

### IMPORTANT CAUTION.

I do hereby caution the public against buying or using a spurious medicine called Dr. Locock's Wafers, manufactured by E. D. Green, Hamilton. All the information he could have obtained was by being in the employ of James Bryan, Rochester, N. Y., two months. James Bryan's being a spurious imitation, let the public judge what E. D. Green's must be.

JAMES JOHNSTON.

An Asylum for the Sick, who have been confined to their beds from 1 to 20 years.

# DR. HAMILTON'S ANALYTIC ASYLUM,

No. 217 Exchange-st., opposite the Orphan Asylum, Rochester, N. Y.

This Institution is now firmly established and in successful operation. The proprietor analyzes every disease that is admitted there and applies the natural and appropriate remedy. Although water is used in every way that it is applied in any water-cure establishment in the United States, yet the proprietor wishes it to be expressly understood that it is not relied on as the *only* or principal remedy in the treatment of disease submitted to his care.

This Establishment is designed for that class of invalids who have failed to obtain their health by all other systems of practice, and are still unable to walk or stand on their feet, and are confined to their beds, wearing out a life of misery and suffering without much or any hope of ever being any better.

The remedies made use of in this Institution not only entirely remove disease, but give increased strength and elasticity to the system. Many have been brought here from different parts of the country, who had neither walked or borne their weight on their feet from 5 to 15 years; and some have been unable to dress or undress, or even feed themselves, and in the course of a few weeks would be walking with the elasticity of youth and the quickness of a pedestrian, astonished at themselves and surprising their friends and all who saw them when they first came. The treatment in this Institution is particularly calculated to remove the diseases peculiar to Females, such as

1st. The Falling of the Womb, in all its stages and conditions in patients, from twelve years of age up to sixty, and even if they have been confined to their beds from one year to twenty, unable to stand, walk, dress or undress themselves, or even too feeble to bear any noise or speak aloud.

2nd. Weakness and Falling of the Bowels; Pains in the Side, Shoulders, Back and Head; Spinal Diseases, Liver Complaints, Sinking Sensation at the Stomach, Palpitation of the Heart, Dyspepsia in all its forms and stages, Piles, Costiveness, Diarrhœa, Suppression of the Menses, Excessive Menstruation, Whites, all Nervous Diseases, Cold Feet and Hands, St. Anthony's Dance, Tetters of all kinds, Salt Rheum in its worst forms, Neuralgia, Tic Doleureux, Rheumatism, Consumption in its first stages, General Weakness and Debility.

The proprietor has given his whole attention to the above diseases for the last ten years, and has treated them in an entire different way from any other private practice or public Institution in this country; and such has been his success, and so certain are his remedies in their effects on those diseases, that instead of publishing a long list of certified cures, he wishes to give that class of invalids seeking to obtain their health a sufficient guarantee against any false pretension, exaggeration, imposition or deception, so that no one need be to any expense in this Institution without being benefited.

The proprietor will enter into a special contract with any one who wishes to do so, that he will admit into the Institution, to advance the money and pay all the expenses from any part of the United States here and back home again, before he commences the treatment, and give a bond to board them, together with his professional services, for nothing, if he does not help them according to contract. Any one thinking the above proposition not a sufficient guarantee against misrepresentation and expense without receiving equal benefit, can let the proprietor know what will be satisfactory, and it shall be duly considered.

This Institution has grown up from private practice by the influence of those who have been helped here, as nothing has ever been published before; and the proprietor means that it shall sustain itself by its own merits, or pay the expense of those who choose to make a contract in case of a failure. The design of this Circular is not to make known the unparalleled cures that have been made in this Institution, because they must be seen to be believed; but to let it be more extensively known to the poor suffering invalids that have spent hundreds of dollars in trying all other systems of practice, and without much or any benefit, and still remain confined to their beds from five to twenty years, that there is an Institution whose treatment is different from any other one in the United States, and is particularly adapted to their situation, and can have it cost them nothing unless they are materially benefited.

From the nature of treatment in this Institution, the number of patients must be limited, therefore the proprietor does not solicit the patronage of slight and ordinary cases which may be easily helped by other systems of practice; nor does he want any one to come, unless they wish to get well, and are willing to be made well enough to walk from five to twenty miles at a time, and follow it up day after day in succession; and also willing to be made able to endure as much labor and fatigue as most of people that call themselves well, as he means that every one that goes through a thorough course of treatment in the Analytic Institution shall show by their increased strength, elasticity of motion, firmness of texture, capability of endurance, and improved health, that the treatment in this Institution is founded on the natural laws of organized matter, and consequently its superiority over every other different system of practice.

All communications addressed to Dr. THOMAS HAMILTON, Rochester, post paid, will receive immediate attention. If requested, reference will be made to those who have been helped in this Institution; and also good references as to the responsibility of the proprietor to meet the above expenses, if required.

# **W. C. SWEET'S Celebrated Black Oil for Horses and Cattle.**

*IT IS AN INVALUABLE REMEDY for Poll-Evil, Fistulas, Scratches, Sand-Cracks, Old Sores with Pipes formed, Saddle Boils, Fresh Wounds, Wind-Galls, Galls of every description, Rheumatism, Calks and Cuts, Collar-Galls, Sweeney, Cracked Heels, Sprains and Bruises, Lameness or Weakness of the Joints, Contraction of the Muscles, External Poisons, Burns and Scalds, Horn Distemper in Cattle, Hoof-Ail, Black-Hoof, &c.*

### **WARRANTED IN ALL REASONABLE CASES.**

*From the Proprietor of the American Hotel, Lockport.*

MR. W. C. SWEET,—Sir,—I have for eight years past used your Black Oil for horses, and can testify, with many others in Lockport who have used it, to its efficacy in curing sores, galls, bruises, sprains, scratches, mud fever, &c. I have had a good deal of experience in many horse medicines, as I have owned many horses. I can safely say it is the best article now in use for horse flesh.

I have tried, to my satisfaction, other oils in use, but do not find them what they purport to be, they fall much below what is recommended. One bottle of Sweet's Black Oil is worth more than ten bottles of any Gargling Oil now in the country, to my knowledge.

Lockport, Sept. 24, 1850.

M. WITBECK.

We concur in the opinions expressed above.

G. W. WALBRIDGE, Rochester.  
J. WITBECK, Lockport,  
J. R. KING.

MR. W. SWEET,—Sir,—I have for many years used your Black Oil for horses, and can with perfect safety recommend it to the public as a first rate preparation for horses; such as galls, sprains, cuts, scratches, &c., in fact sores of every kind. I have used many preparations for horses, but I unhesitatingly give the preference to Sweet's Black Oil. I would recommend every owner of horses to keep a bottle of this oil on hand.

## **INFALLIBLE AND NO MISTAKE! THE KING OF OILS!**

This is a regular cure-all medicine in every instance in which it has been applied. It has proved itself to be the best and most effectual specific ever yet invented, for the following diseases to which mankind are subject. It has been found an infallible cure for Piles, Old Sores with or without Pipes formed, Sprains, Chapped Hands, Fresh Wounds, Salt Rheum, Hard Tumors, Chilblains, Bruises, Scald Head, Cramps, Rheumatism, Crick or Pains in the Back, and Roughness of the Skin.

### **VALUE OF SIGHT.**

**Sweet's Infallible Water!** A certain and immediate cure for Sore, Inflamed or Weak Eyes—Warranted!

THE VALUE OF SIGHT—That sentence, unknown but to those afflicted with that dreadful and distressing disease, sore and inflamed eyes, one so prevalent and common. The practitioner of greatest skill, if honest, generally shrinks in despair, at the prospect of governing and eradicating these diseases. His remedies are generally mild, and the patient feels happy at any relief from his torments. If his family doctor gives him any hope of cure, it is at the end of a long course of medicine—that is to act upon the system, or at the expense of leeching, cupping, and bleeding from the temples, until it is cured—which is by such means next to impossible. He has not enough of life left worth living for, but the unconsoling idea of always having weak eyes, or obliged to gaze on the fair face of nature around him, through a pair of artificial eyes, or spectacles. How important, then, a remedy to check and strengthen, until Nature, sight, and cure, have the sway and control. Such you may rely on is the effect of Sweet's Infallible eye Water.

# MOTORPATHY,

## The system of curing disease by Statuminating vitalizing Motion.

THIS new method of treating PROLAPSUS UTERI, in which no supporters, pessaries, or any of the usual treatment of the day is employed, has been now in use a sufficient time to remove all doubt as to its practicability. In HALSTEDS' MEDICAL INSTITUTE, where the discovery was made, every variety disease incident to women is treated with unvarying certainty of success, heretofore unknown. Many cases of PROLAPSUS UTERI are here cured in a few days; and the most difficult in a few weeks. To produce this almost instantaneous relief, the patient is subject to no pain or inconvenience.

For the removal of other uterine weaknesses this system is equally efficient. Several hundreds have already been cured of these diseases by this Motorpathic treatment, though the discovery is of recent origin. Many of the most inveterate and extraordinary cases, of from one to fifteen years' standing, some accompanied with extreme urinary difficulties, and many with that inability to stand upon the feet, or be raised from a horizontal position—which is peculiar to these diseases—have been brought here on beds, a distance of from twenty to several hundred miles, attended by their physicians or friends; and these suffering and helpless women have in every instance been raised from their beds, and after a short treatment, been enabled to walk from one to six miles daily, and take much other exercise.

Ladies wishing to communicate with these former patients can receive their address by writing to H. HALSTED, MEDICAL INSTITUTE, AND MOTORPATHIC, AND WATER CURE ESTABLISHMENT, ROCHESTER, N. Y. Those also desiring information concerning this new method of treating disease, or the Institution, can obtain it by writing to the same address; post paid.

## TO THE AFFLICTED.

A NEW ERA IN THE ART OF CURING all Diseases of the Body, as well as the different derangements of the mind.

### DR. E. G. SHLOETZER, SEN.,

Would respectfully inform the citizens of Rochester and vicinity, that he continues to effect the most astonishing cures in males and females, by means of his medical system called HAEMATO-NEURO-THERAPIA, which embraces a thorough cure and renovation of the blood, together with a normal regulation of the entire nervous system.

Dr. S. has been most successful during the last six years, in the permanent cure of the most complicated Chronic diseases, such as Scrofula, Bronchitis, Consumption, Dropsy, Palsy, Rheumatism, Gout, Piles, Epilepsia, Liver Complaints, Dyspepsia, Fever and Ague, diseases of the Eyes, *all kinds of Secret and Mercurial diseases, &c. &c.*

Dr. S. cures the most delicate complaints peculiar to females, from girlhood up through life, without mechanical aid. He likewise strengthens and regulates weak and deranged nerves, mental prostration, imbecility, melancholy, and insanity, with the creating of clearness and perception, power of memory, and strength of judgment. Advice and important aid rendered to parents of sickly children and groaning invalids, having visible or concealed diseases.

Those suffering from that nameless illness, being neither well nor sick, are invited to call at his residence where they can obtain pamphlets which he has recently published, wherein is set forth and explained his natural system for their speedy cure, together with the approval of the highest medical authorities.

Persons residing at a distance by stating their symptoms, can have safely forwarded to them the proper remedies. All his prescriptions, which are quite palatable to the taste, are prepared by himself, from SAFE BOTANICAL PRODUCTIONS, and are of the utmost purity.

**THE LARGEST BOTTLE IN THE WORLD**  
**ONE DOLLAR!**

We can truly say, our medicine has far surpassed our fondest expectations. Three times we have been compelled to enlarge our establishment, in order to meet the demand and fill our orders. Testimonials of heart-felt gratitude from those who have been afflicted with diseases heretofore considered by the most celebrated physicians incurable, are continually pouring in from all quarters, of the most cheering nature, both to the afflicted and to us. Our little pamphlet would be a *pigmy*, in containing the accounts of the happy effects which we have received from our numerous customers in this short space of time; and still we have hardly let it be known through the public papers that such a medicine was in existence; and yet it is fast taking the place of those medicines which purport to be designed for the same purpose, and backed up by advertisements through nearly all the public papers.

Yes, many of the proprietors of similar medicines acknowledge that they have expended over fifty thousand dollars in keeping their medicine before the public. Now, in spite of all this, wherever our medicine has been fairly tested, it is fast taking the place of theirs. How is this? Here is the great secret: we prefer to put the fifty thousand dollars into our medicine, in order to make it stronger and better, and let the afflicted have the benefit of it, rather than to give it to the printers; and we allow the medicine to advertise itself, thro' the recommendations of those who use it; which is far more agreeable to our feelings, and much more satisfactory to those who take it.

Again, it would be impossible for us to advertise to any great extent; and keep up the full strength of the medicine as we have thus far continued to do; and for the very best of reasons—viz: we should be losing money, and it must be obvious to every one, that Sarsaparilla, put up in as large bottles as we put it up in, and of the strength that we make it, and sold for one dollar, can not yield a very large profit; and that small profit we are satisfied with, rather than make an inferior and worthless article and put the profits into advertising it, in order to make sales.

Now let us say to the reader, when you see a medicine extensively advertised in all the public papers, and the proprietors boasting that they have thus expended forty or fifty thousand dollars, you may put that medicine down as nearly worthless, and as costing the maker but a mere trifle.

For sale by all the principal Druggists through the Province, where Almanacs and Pamphlets will be found, giving a full description of the medicine, and certificates of its cures.

# WARMING AND VENTILATING Public & Private Buildings.

The Subscribers are now prepared to take contracts for warming and ventilating public buildings and private dwellings upon the most approved plans. They have a great variety of coal and wood furnaces of different sizes designed for either large or small dwellings, and also for churches, school houses, stores, manufactories, greenhouses, &c. Their plan of warming air is in many respects new, and wherever adopted, they trust the prejudices which have hitherto existed against furnaces, in consequence of the unwholesome quality of the warmed air, and its injurious effect upon wood work and furniture will cease.

The subject of Ventilation, which has within the last two years received so much attention in this country and Europe, must commend itself to the favorable consideration of all who desire health and comfort in their own rooms and places of public resort. It is easily accomplished under all ordinary circumstances, if the subject is thoroughly understood by those who have it in charge. In many parts of the country unventilated school houses and places of public amusement are considered unfit for use, and many physicians in the country express the same opinion of unventilated parlors and sleeping apartments. The subscribers have taken great pains to inform themselves upon this subject, and have all the necessary apparatus for a complete system of either natural or forced ventilation, and with their improved mode of warming buildings, they feel confident of meeting the expectations of all those who may desire to introduce a constant supply of wholesome air without injury from the warming apparatus. The subscribers regret their past inability to fill their numerous orders, but are now prepared by their increased facilities in manufacturing to comply with the demand of their customers. Persons from a distance making inquiries or transmitting orders, are requested in all cases to send drawings of the rooms to be warmed and ventilated, and all persons engaged in erecting or improving their buildings are requested to call at our Warerooms, State street, Rochester, and examine for themselves.

They also keep MARBLE-CHIMNEY PIECES of the most approved patterns and styles,—every variety of FIRE GRATE, PATENT FIRE PLACES, EMERSON'S CHIMNEY TOPS, which prevent all downward currents in chimneys,—WARM AIR REGISTERS of different sizes, plain and plated, COOKING RANGES, &c., &c.

Situated on South  
Sophia Street,

one mile South of  
the City.

The Proprietors beg leave to call the attention of the Nurserymen, Agents, and the Public in general of the United States and the Canadas, to their Stock of Fruit, Ornamental Trees and Plants. They have added many new and rare Fruits, Plants, &c., to their grounds, and by an established foreign connection they have made arrangements to introduce into their Nurseries everything from England and the Continent that is thought to be a valuable acquisition; and by the possession of many other facilities, enables them to present to all persons an opportunity to purchase Trees, &c., on the most reasonable terms. Their stock of Apples, Pears, on their own and on Quince Stocks, Cherry, Plum, Peach and Apricot Trees is large, and will continue to be of good size and thrifty plants, comprising all the leading most choice and desirable kinds which are warranted to prove as recommended.

Grapes, Raspberries, Strawberries, Currants and Gooseberries of choice and new kinds lately imported. Quinces and Esculent Roots in abundance; Choice Evergreens, Deciduous Trees, Evergreen Shrubs, Vines and Creepers. The very choicest Roses, both standard and on their own roots. Green House and Stove Plants. Dahlia Roots of the newest and most desirable sorts, many of which have just been imported.

All of the above and many others, which it is impossible for us to enumerate here, will be packed in a neat and secure manner, and each package sent to their respective freight offices for shipping and forwarding, free of charge in this city at our retail prices.

N. B. It will continue to be the aim of the proprietors to send nothing from their Nurseries but good and thrifty Plants.

Retail priced Catalogues furnished gratis on application.

To Nurserymen, Agents, Venders and others, Trees, &c., in large quantities at much reduced rates.

## PERFECTION OF POCKET PENS! NEW PATENT FOUNTAIN PEN.

This truly great invention renders the Pocket Gold Pen perfect, and is invariably considered as the great desideratum fully attained. Its advantages over the ordinary pen are:

1st—As a perfect substitute for the Pocket Inkstand.

2nd—As an improved dip pen.

3rd—Its use with or without the Fountain.

4th—The adaptation of the holder to any pen.

5th—Its use both as a pocket and desk pen.

6th—The nib will hold three times the quantity of ink of the ordinary pen, thus rendering the metallic or gold pen perfect in use.

This pen is particularly useful to travellers—and all persons who use pocket inkstands—and equally useful to all who use the pocket pen, as the Fountain does not interfere with its use as an ordinary dip pen—it is rather an advantage. The construction is simple, and the Fountain easily managed.

The pens are warranted equal to any in use. If a person has a pen already which pleases him, he can purchase the Fountain Holder, and use his own pen.

The following description of its construction, with reference to the accompanying engraving, will give a general understanding of its mechanism, and the manner of its operation:—

The body of the article is a hollow, six-sided cylinder, into which is fitted an elastic packed piston, which works on a screw rod attached to a revolving head at the upper end. From the lower end descends a small tube, having a curved point resting upon the blade of the pen. The cap, or tube that covers the pen when not in use, is taken off and applied to the revolving head at the upper end, which by turning, raises or lowers the piston, injecting or ejecting the ink according to the direction in which it is turned.

Look at the new Fountain Pen before you purchase any of the ordinary pens, as its advantages are great, and you will soon desire one.

Sold by Booksellers, Jewellers, and Dealers in pens generally.

Also sold by Stationers and Jewellers throughout the Provinces of Canada—Public Officers find this pen of great utility—and when ordered by the dozen for parties they will be sold at a liberal discount.

Sold at Toronto, by Thomas Maclear,—at Montreal, by John McCoy, Stationer,—at Cobourg by F. House,—at Hamilton, by the Book Dealers.

Also, at wholesale and retail by

## JOHN A. PITTS,

MANUFACTURER OF

### THRASHING MACHINES AND DOUBLE PINION HORSE POWERS,

68 SOUTH ST. PAUL STREET, ROCHESTER, N. Y.

The subscriber continues the manufacture of the celebrated "Pitt's Separator." It is the same machine that has stood, and now stands unrivalled by any machine for Threshing and Cleaning Grain, in existence. It has been exhibited at State and County Agricultural Fairs, in the United States and Canada,—always receiving the *First Premium*.

The Horse Power, for strength, ease, durability, and cheapness of repair, is unequalled. The driving wheel is six feet in diameter, driving two pinions, each receiving equal power; two bevel wheels, driven by the pinions, connect with two pinions, on the line shaft; thus it will be seen, this Horse Power is double the strength of any single geared Power. It may be driven with from two to ten horses, depending upon the power required.

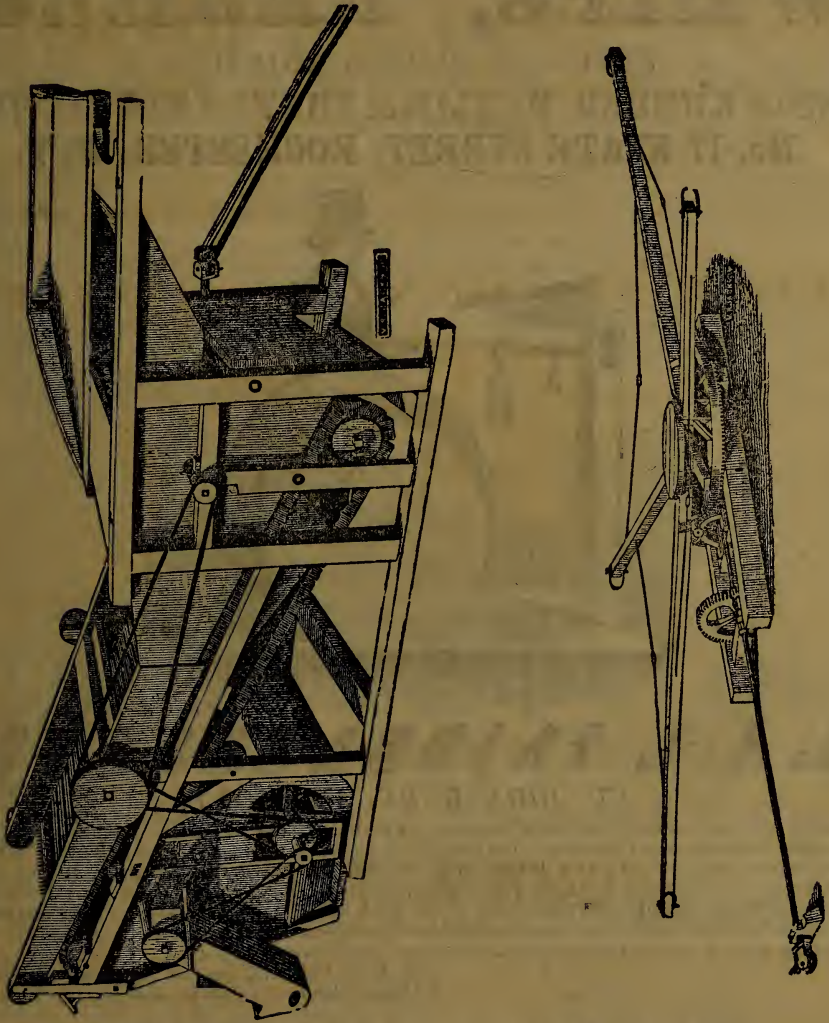

The Machines have fully sustained all I claim for them; I therefore solicit orders from those who would secure the best THRASHING MACHINE and HORSE POWER.

Please address as above.

JOHN A. PITTS.

The subscriber, from his great facilities for constructing these Machines, can and will sell at lower prices than any other Factory in the Union. The Agricultural Public are requested to call and inspect his Machines, and over three hundred certificates of their durability and performance.

## TO CIVIL ENGINEERS, Railroad Directors, and Land Surveyors.

THE Subscribers would respectfully invite the attention of all persons interested in the purchase or use of *Engineering Instruments* to the following brief description of some of the instruments manufactured by them.

Warranting the perfection of our instruments to equal the best imported, while in strength, simplicity, and permanence of adjustment, qualities required by the exigencies of engineering in a new country, they are far superior to the European manufacture, and are afforded at less price.

**LEVELLING INSTRUMENTS.**—Y-levels, with telescopes from 16 to 24 inches long; eye glass adjusted to focus upon the cross hairs by rack and pinion movement; an adjustment of the object glass slide, (recently invented by us) by which its movement in a straight line with the axis of the rings, which form the bearings of the telescope in the Ys, is made certain; thus obviating an imperfection heretofore existing in the Y level, when used at different distances from the one at which the line of collimation was adjusted—with this improvement, the line of collimation adjusted at ten feet is adjusted for any object however remote.

**LEVELLING RODS.**—6½ Feet long, sliding up to 12 feet—machine divided, and with improved Targets and Clamps.

**ENGINEERS' TRANSIT INSTRUMENT.**—This instrument has, in American Railroad Engineering, taken the place of the English Theodolite. Telescope 12 and 14 inches long is a transit or reverses for fore and back sights, Compass Card, 5½ and 6 inches diameter, Divided Plates for horizontal angles, 6½ to 7½ inches diameter, read by two opposite verniers to single minutes, with Clamp and Tangent screw movement.

Verticle Circle can be attached to axis of Telescope if desired. This instrument as well as the level is furnished with a Tripod, of the most substantial description, with the usual adjustment of parallel plates and screws, it has also the Clamp and Tangent screw.

**ASTRONOMICAL TRANSITS.**—With Telescopes from 2 to 6 feet long.

**VERNIER TRANSIT COMPASS.**—This instrument, used for Land Surveying, is furnished with a Telescope which reverses for fore and back sights, Needle 6 inches long, Compass Card divided to half degrees, Vernier Plate moved by a tangent screw to about ten degrees—used for taking the variation of the magnetic meridian—reads to one minute, A verticle circle for angles can be attached to the Axis of the Telescope. This instrument can be used as a levelling instrument for taking levels for Mill Sites, &c., by taking observations at equal distances, is used upon a single staff, or with the common compass tripod.

**VERNIER COMPASS.**—This instrument has the same parts and qualities as the Vernier Transit, with the exception of the sights, which are the usual vertical sights, with slots.

**PLAIN OR SINGLE PLATE COMPASSES.**—Of the usual construction. These two last named Compasses have a simple fixture upon the sights, enabling the surveyor to take angles of elevation up to twenty degrees.

We are prepared to make Theodolites, and every description of engineering instruments to order; and shall always keep on hand Chains, metallic and linen Tape Measures, and a large assortment of **DRAFTING INSTRUMENTS**, in cases from one to fifty dollars each, with ivory, architectural, chain, and protractor scales, dividers, bowpens, &c., separate from the cases. All instruments sold by us warranted correct.
